COMPANY

Scarabeo Ceramiche nasce nel cuore del distretto ceramico di Civita Castellana, rinnovando una tradizione millenaria. Ogni giorno trasformiamo la ceramica in oggetti destinati a durare nel tempo.

I nostri prodotti sono la sintesi di valori solidi: innovazione, inclusione, affidabilità, efficienza, sostenibilità, trasparenza, lavoro di squadra, eccellenza, tenuti insieme dall'orgoglio del Made in Italy come filo conduttore.

Valori che diventano metodo: controllo rigoroso della qualità e investimenti continui in tecnologia e processi sostenibili, per dare forma a prodotti robusti e affidabili.

Ma la durevolezza, per Scarabeo, non è solo una questione di materia, è soprattutto una questione di stile. Linee essenziali, proporzioni studiate, colori e finiture che superano le mode del momento danno vita a forme contemporanee pensate per restare nel tempo.

Scarabeo Ceramiche was born in the heart of the ceramic district of Civita Castellana, renewing a centuries-old tradition. Every day we transform ceramic into objects designed to last over time.

Our products embody a set of solid values: innovation, inclusion, reliability, efficiency, sustainability, transparency, teamwork and excellence, all held together by the pride of Made in Italy as a common thread.

These values become method: rigorous quality control and continuous investment in technology and sustainable processes give shape to products that are robust and dependable.

But durability, for Scarabeo, is not only a matter of material, it is above all a matter of style. Essential lines, balanced proportions, colours and finishes that go beyond passing trends give life to contemporary forms designed to stand the test of time.

UN NOME CHE RACCONTA UN'IDENTITÀ

Scegliere un nome non è mai un gesto casuale, rappresenta il primo atto di identità.

Nel 1974, nel cuore del distretto ceramico di Civita Castellana, nasce Scarabeo Ceramiche, un'azienda che fin dall'origine lega la propria essenza ad un simbolo millenario: lo scarabeo egizio, emblema di rinascita, trasformazione e perseveranza.

Nell'antico Egitto lo scarabeo rappresentava il dio Khepri, colui che spinge il sole verso l'alba, metafora del rinnovamento continuo. Allo stesso modo, ogni creazione Scarabeo nasce dalla terra e dal fuoco per trasformarsi in una forma nuova, duratura e luminosa. Il processo ceramico diventa così una metamorfosi materica, dove l'argilla si rigenera in design contemporaneo, fondendo arte e funzione.

Questa connessione tra simbolo e sostanza dà vita ad una filosofia che attraversa ogni fase produttiva: cura artigianale, attenzione ai dettagli, rispetto per l'ambiente e ricerca estetica. Come lo scarabeo rinnova la vita nella natura, Scarabeo Ceramiche rinnova la tradizione con tecnologie sostenibili e produzioni ad impatto zero, trasformando ogni prodotto in un segno concreto di rigenerazione.

Oggi il nome Scarabeo è molto più di un marchio: è una narrazione identitaria che unisce storia e innovazione, mito e design. Ogni sanitario, lavabo, elemento d'arredo, porta con sé questa eredità simbolica: la forza della rinascita, la bellezza della trasformazione e la durata nel tempo di un'opera che nasce dalla terra per illuminare lo spazio quotidiano.

Choosing a name is never a random act; it represents the first act of identity.

In 1974, in the heart of the ceramic district of Civita Castellana, Scarabeo Ceramiche was born, a company that from its very origins has linked its essence to a millennia-old symbol: the Egyptian scarab, an emblem of rebirth, transformation, and perseverance.

In ancient Egypt, the scarab represented the god Khepri, the one who pushes the sun toward the dawn, a metaphor for continuous renewal. In the same way, every Scarabeo creation is born from earth and fire to transform into a new, durable, and luminous form. The ceramic process thus becomes a material metamorphosis, where clay is regenerated into contemporary design, fusing art and function.

This connection between symbol and substance gives life to a philosophy that permeates every phase of production: artisanal care, attention to detail, respect for the environment, and aesthetic research. Just as the scarab renews life in nature, Scarabeo Ceramiche renews tradition with sustainable technologies and zero-impact production, transforming every product into a tangible sign of regeneration.

Today, the name Scarabeo is much more than a brand: it is an identity narrative that unites history and innovation, myth and design. Every wc, washbasin, furnishing element, carries with it this symbolic legacy: the strength of rebirth, the beauty of transformation, and the enduring quality of a work born from the earth to illuminate everyday spaces.

scarabeo

I NOSTRI VALORI / OUR VALUES

Siamo persone: ci piace ascoltare, siamo empatici, investiamo nella formazione per consentire ad ogni collaboratore di esprimere il proprio potenziale.

We are people: we like to listen, we are empathetic, and we invest in training to enable all employees to express their potential.

Innovatori: crediamo nel rispetto di regole e standard, viviamo con il desiderio di superarle.

Innovators: we believe in following all rules and standards, and we live with the ambition to exceed them.

Affidabili: ogni nostro prodotto è sinonimo di resistenza e longevità.

Reliable: all our products stand for durability and longevity.

Efficienti: ottimizziamo la capacità produttiva per garantire flessibilità e rapidità nelle consegne.

Efficient: We constantly optimize our production capabilities to archive the highest production and delivery outcome.

Sostenibili: perseguiamo l'innovazione, purché sostenibile e rispettosa dell'ambiente.

Sustainable: We act sustainable and climate-friendly to protect our precious resources.

Trasparenti: onestà, integrità e trasparenza sono alla base delle nostre relazioni umane e di business.

Transparent: honesty, integrity and transparency are the basis of our human and business relationships.

Uniti: il successo è merito del team, del contributo e della collaborazione di tutti.

United: success stems from the contribution and collaboration of all team members.

Tendiamo all'eccellenza: lavoriamo per distinguerci, mirando all'eccellenza.

We strive for excellence: we work to distinguish ourselves, aspiring for perfection.

Diversi ma uguali: promuoviamo l'inclusione, in un ambiente di lavoro che valorizzi e celebri le diversità.

Different but equal: we promote inclusion in a work environment that values and celebrates diversity.

Made in Italy: insieme ai prodotti esportiamo il patrimonio culturale del nostro Paese.

Made in Italy: along with products we export our country's cultural heritage.

FUSIONE DI QUALITÀ, DESIGN RESISTENZA E DUREVOLEZZA

Rappresentiamo con orgoglio l'eccellenza della ceramica italiana.

Trasformiamo ogni idea in una forma, con una produzione interamente Made in Italy.

Uniamo tradizione ed innovazione, valorizzando l'ambiente bagno, curando estetica e funzionalità.

Realizziamo sanitari e mobili da bagno che assicurano il benessere di clienti e partner in tutto il mondo.

We proudly represent the excellence of Italian ceramics.

We transform every idea into form, with production entirely Made in Italy.

We combine tradition and innovation, enhancing the bathroom environment while focusing on aesthetics and functionality.

We create sanitaryware and bathroom furniture that ensure the well-being of customers and partners worldwide.

3000 ANNI DI CULTURA CERAMICA

Attingiamo ad un sapere che affonda le sue radici in epoca preromana, arricchito dalle innovazioni tecnologiche più avanzate.

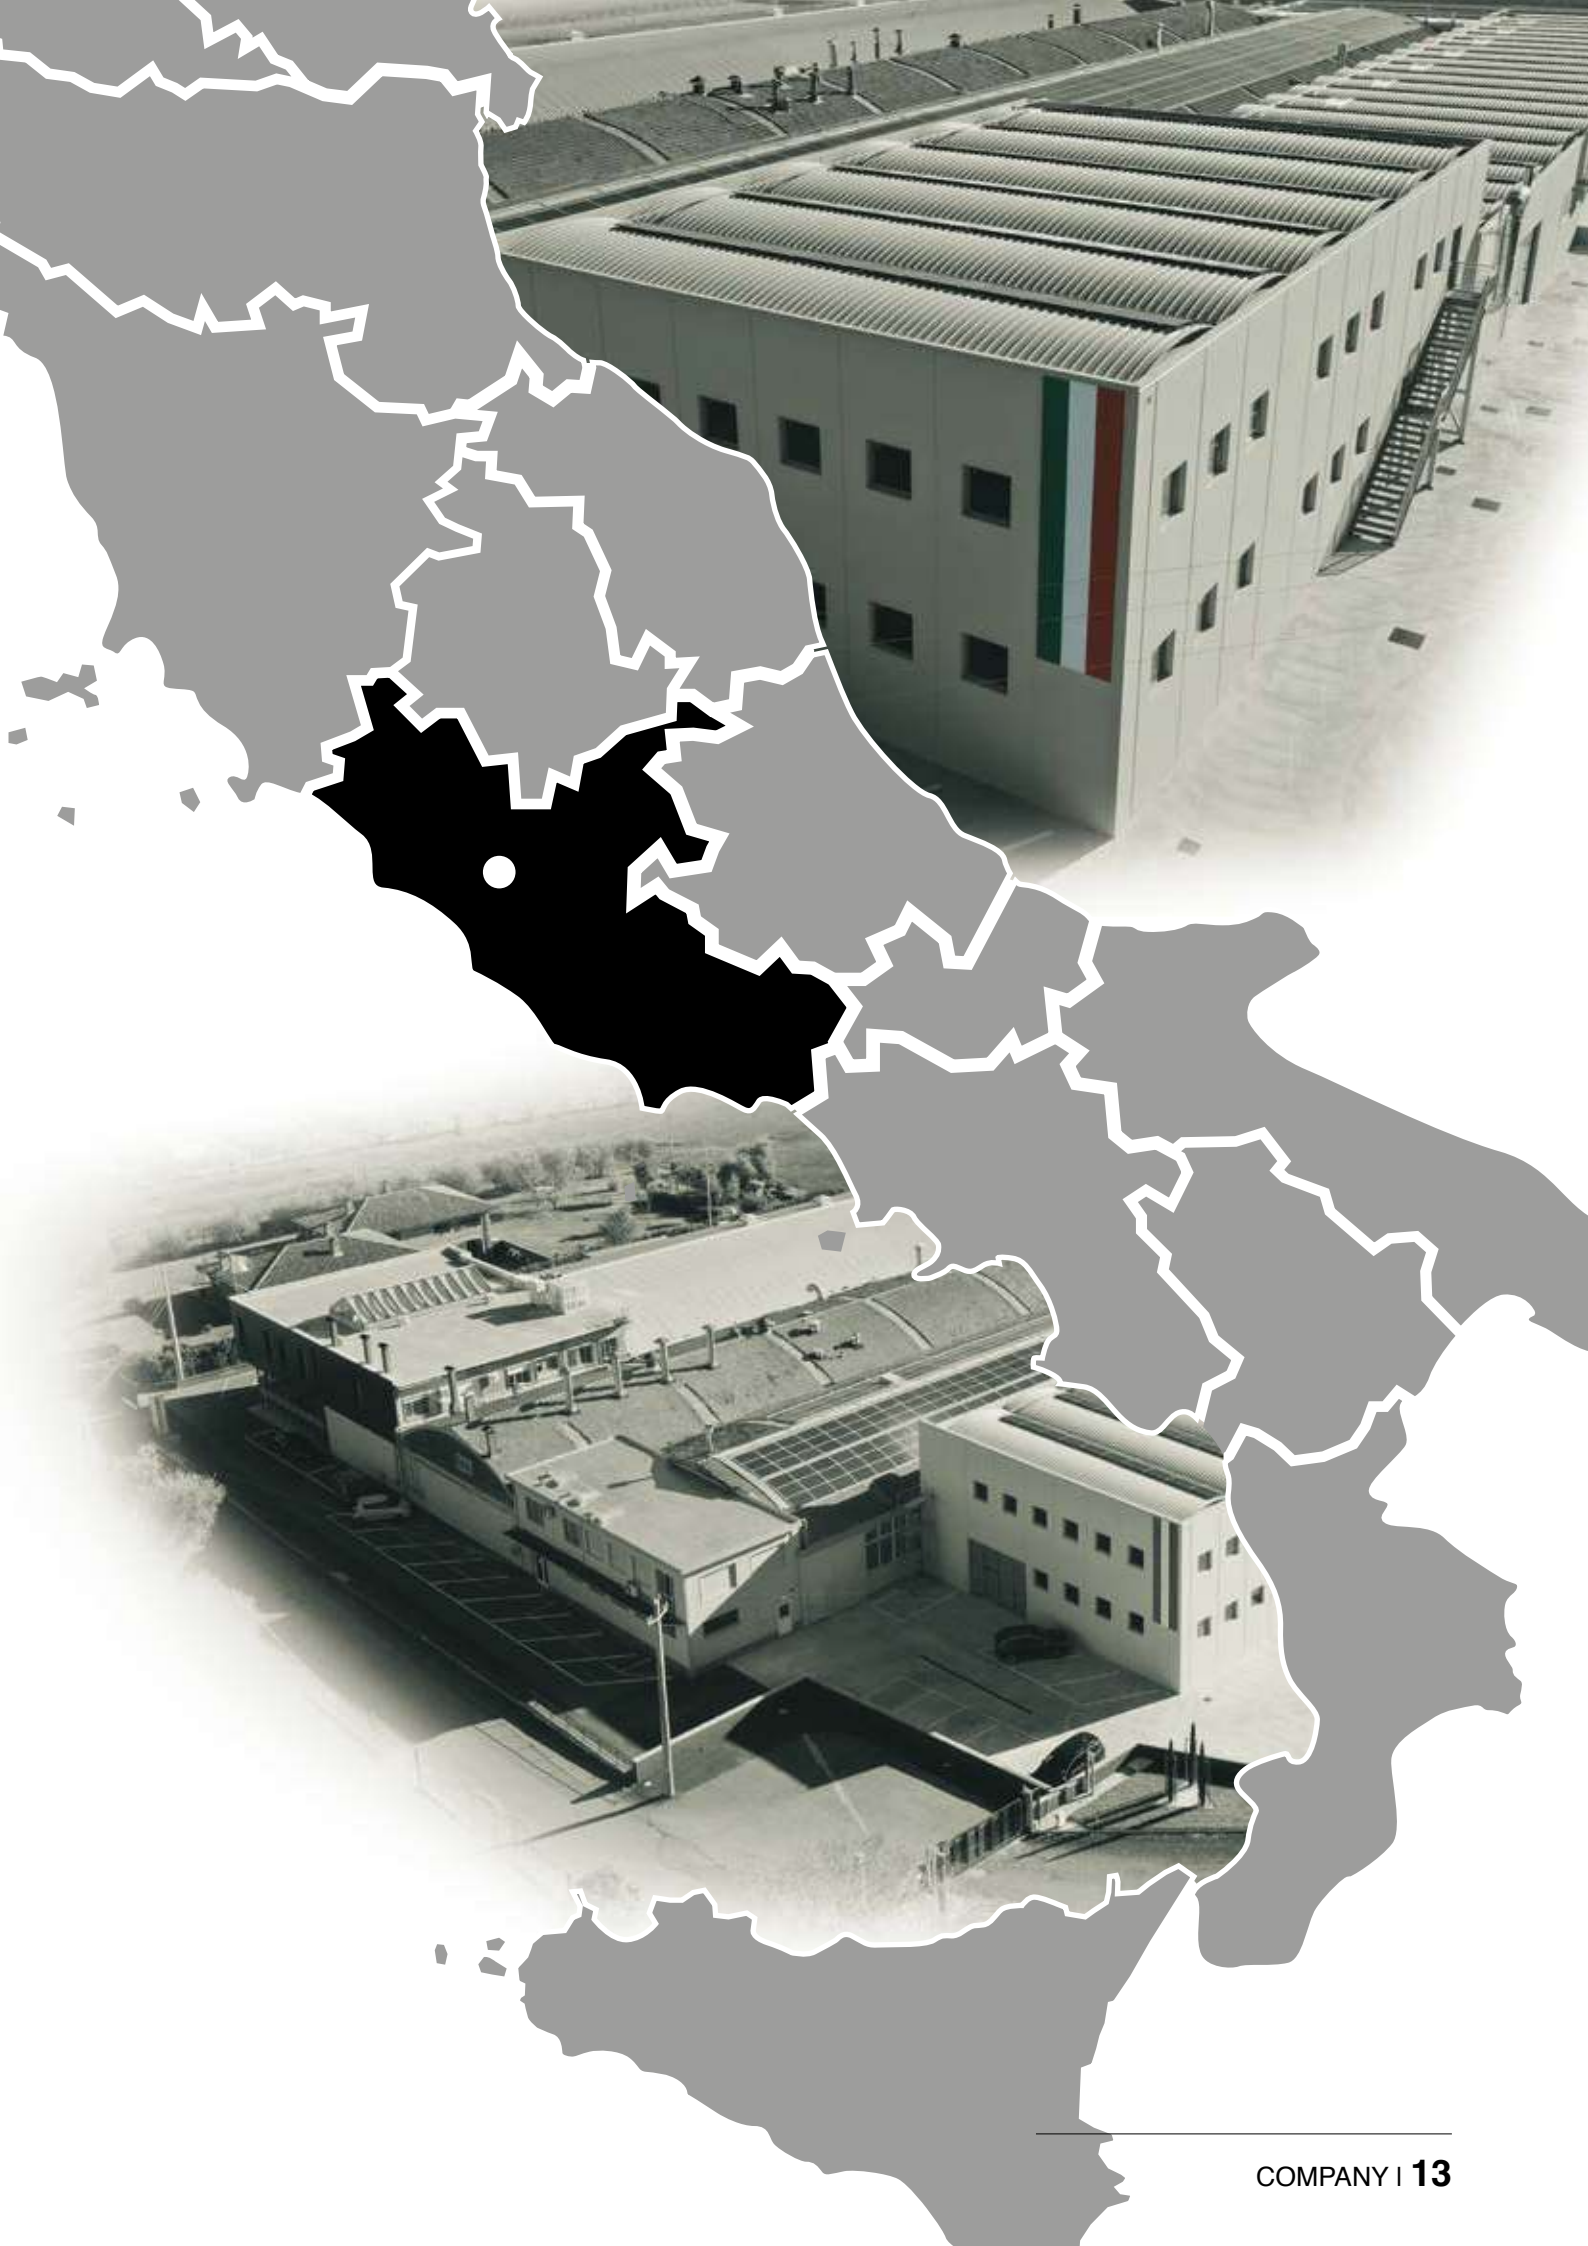

Una fusione unica, che dà vita a prodotti di qualità superiore, inimitabili per affidabilità e durabilità.

Scarabeo Ceramiche è sinonimo di qualità ed innovazione nel settore dei sanitari e dell'arredo bagno.

We draw on knowledge that has its roots in pre-Roman times, enriched by the most advanced technological innovations.

A unique fusion that gives life to superior-quality products, unmatched for reliability and durability.

Scarabeo Ceramiche is synonymous with quality and innovation in the sanitaryware and bathroom furniture sector.

ARCHITETTURA E STILE IN BAGNO

Ridefiniamo costantemente il carattere e lo stile di ogni bagno. Siamo partner dei migliori architetti, interior designer e distributori in tutto il mondo.

We constantly redefine the character and style of every bathroom. We are partners of the finest architects, interior designers, and distributors worldwide.

MISSIONE

Crediamo nelle regole, lavoriamo per superarle. Realizziamo prodotti di design, anticipiamo le tendenze, manteniamo l'equilibrio tra tradizione ed innovazione.

We believe in rules, we work to go beyond them. We create design products, anticipate trends, and maintain the balance between tradition and innovation.

INNOVAZIONE

L'adozione di tecnologie avanzate di colaggio ad alta pressione consente di modellare la ceramica con precisione millimetrica, garantendo risultati di altissima qualità.

Utilizzando stampi in resina al posto di quelli in gesso si elimina la problematica dello smaltimento in discarica.

La facilità di cambio degli stampi garantisce massima flessibilità produttiva, mentre la versatilità della tecnica permette la realizzazione di forme innovative che coniugano estetica e funzionalità.

The adoption of advanced high-pressure casting technologies allows ceramic to be shaped with millimetric precision, ensuring results of the highest quality.

By using resin tooling molds instead of plaster ones, the issue of landfill disposal is eliminated. The ease of mold replacement ensures maximum production flexibility, while the versatility of the technique allows for the creation of innovative shapes that combine aesthetics and functionality.

LA MAGIA DEI COLORI SCARABEO

Alla ceramica bianca, nobile, classica e senza tempo, Scarabeo affianca un'ampia scelta di soluzioni colorate per arredare la sala da bagno con carattere e personalità, in sintonia con le tendenze e le linee guida del design contemporaneo. La scelta dei colori può influire significativamente nel contesto abitativo, regalando sfumature e contrasti inediti capaci di trasformare l'ambiente in un luogo carico di fascino e originalità. Alle già esistenti tonalità disponibili nelle versioni lucide e opache, Scarabeo propone nuovi colori che vanno ad arricchire le possibilità di scelta.

L'azzurro Air, il giallo Lime e l'arancio Peach integrano l'offerta regalando al pubblico nuove nuances, lucide e opache, per creare un ambiente bagno non solo funzionale ma anche personalizzato esteticamente.

A queste tre nuove sfumature si aggiunge il rosso Cherry, solo nella versione glossy, per un tocco di colore inedito e audace.

Alongside the noble, classic timeless white ceramics, Scarabeo offers a wide range of colourful solutions to decorate your bathroom with character and personality, in tune with contemporary design trends and guidelines. The choice of colours may significantly influence the living context, creating unusual shades and contrasts capable of converting the space into a place full of charm and originality. Scarabeo is adding new colours to the existing ones available in the glossy and matt versions, extending the choice even further. Air Blue, Lime Yellow and Peach Orange are being added to the colour range, offering new glossy and matt shades, for a bathroom that is not only functional, but also visually customised. Cherry Red is also being added together with these three new shades, but only in the glossy version, for an original and bold touch of colour.

DecorArt

Scarabeo introduce una nuova modalità nell'interpretare la ceramica, attraverso il percorso DecorArt.

Un'esplorazione sperimentale che sfrutta le valenze tecnologiche dei nuovi standard digitali, DecorArt approda a risultati di livello stupefacente proponendo tre nuove finiture ispirate alla bellezza del marmo. Marmo nero, bianco e travertino, con le loro classiche e raffinate sfumature, sono i nuovi decori che trasformano la ceramica in un materiale ad alto valore estetico, difficilmente distinguibile a livello visivo dalla pietra originale. Sono quattro le collezioni di Scarabeo interessate dai nuovi pattern DecorArt: Teorema 2.0, caratterizzata da un design essenziale e bordi sottili; l'ampia famiglia dei lavabi Glam con le loro linee gentili ed eleganti; tutta la serie Moon, che si distingue per l'ampiezza del bacino e la leggerezza dei bordi e la collezione di arredobagno Scarabeo Laila che, oltre ad essere nata per accogliere i lavabi Moon, si dota anche della variante delle mensole decorate con finitura marmo per un impatto visivo di assoluta classe.

Scarabeo introduces a new way of interpreting ceramics through the DecorArt journey. An experimental exploration that leverages the technological potential of the latest digital standards, DecorArt achieves strikingly high-end results by offering three new finishes inspired by the beauty of marble. Black, white, and travertine marble—with their classic, refined nuances—are the new decors that transform ceramics into a material of high aesthetic value, visually difficult to distinguish from the original stone.

Four Scarabeo collections feature the new DecorArt patterns: Teorema 2.0, defined by an essential design and slim edges; the extensive Glam basin family, with its gentle, elegant lines; the entire Moon series, distinguished by the generous basin size and the lightness of its rims; and the Scarabeo Laila bathroom furniture collection which, in addition to being created to pair with Moon basins, also includes a version with decorated shelves in a marble finish for a truly classy visual impact.

Legni / Woods

Alle finiture Standard (Rovere moro, Rovere Lindberg, Tortora, Arena, Pearl e Ardesia), si aggiungono le finiture Premium tra le quali è possibile scegliere tra Noce Canaletto e Rovere Chiaro, nelle versioni lisce o cannettate. Le stesse sono disponibili anche nella versione bicolor insieme al bianco. Il legno è inoltre proposto nella finitura laccata matt nei colori Pearl, Ardesia, Sand, Tabacco, Antique Pink, Musk, Ocean, Air, Lime e Peach, gli stessi colori della ceramica, per offrire la possibilità di creare combinazioni materiche colorate perfettamente abbinate tra loro.

In addition to the Standard finishes (Dark Oak, Lindberg Oak, Dove Grey, Sand, Pearl and Slate), Premium finishes are also available, including a choice between Canaletto Walnut and Light Oak, in both smooth and fluted versions. These are also offered in a bicolor version combined with white.

The wood is further available in a matte lacquered finish in the colors Pearl, Slate, Sand, Tobacco, Antique Pink, Musk, Ocean, Air, Lime and Peach the same colors used for the ceramic allowing the creation of perfectly coordinated, colorful material combinations.

Twist: l'evoluzione dello scarico a risparmio idrico.

Twist è l'innovativo sistema di scarico di tipo "tornado" brevettato da Scarabeo, progettato per rivoluzionare l'igiene, il risparmio idrico e la silenziosità nel bagno. Grazie allo scarico di tipo "tornado" la tecnologia a vortice garantisce un livello di igiene superiore. Il cuore di Twist risiede nella sua tecnologia a Vortice (Vortex): il design interno del vaso genera un potente flusso d'acqua circolare orizzontale ad alta velocità. Questa azione di risciacquo a vortice assicura la pulizia totale dell'intera superficie interna, garantendo la massima igiene. Come sistema rimless (o senza brida) il vaso elimina il tradizionale bordo contenitivo, prevenendo l'accumulo di sporco e batteri e semplificando drasticamente le operazioni di pulizia.

Il design sofisticato del vaso è ottimizzato per un risparmio idrico ancor più performante rispetto ai sistemi di scarico tradizionali. Il flusso direzionato sfrutta la potenza del Vortex con la minima quantità d'acqua necessaria, mentre il bordo contenitivo è studiato per ridurre al minimo qualsiasi fuoriuscita d'acqua durante lo scarico, ottimizzando l'efficienza. Twist non è solo igiene e risparmio. Il nuovo sistema è progettato per limitare al massimo il rumore, garantendo un alto livello di silenziosità che contribuisce al benessere nell'ambiente bagno. Attualmente implementato nei vasi della collezione Glam e in estensione su Teorema 2.0 e sulla nuova collezione di sanitari Skinny, Twist si integra perfettamente con le linee pulite ed eleganti del design Scarabeo.

Twist è rotazione, igiene, silenziosità.

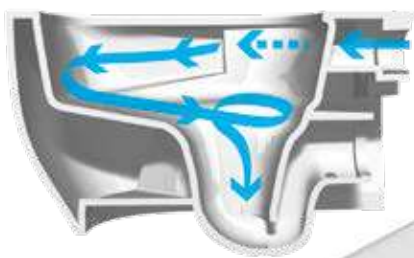

Twist is Scarabeo's innovative, patented "tornado" flushing system, designed to revolutionize hygiene, water saving and quietness in the bathroom. Thanks to the "tornado" flush, vortex technology delivers a superior level of hygiene.

The core of Twist lies in its Vortex technology: the internal design of the bowl generates a powerful, high-speed horizontal circular flow of water. This vortex rinsing action ensures total cleaning of the entire inner surface, guaranteeing maximum hygiene. As a rimless system, the bowl eliminates the traditional rim, preventing the build-up of dirt and bacteria and drastically simplifying cleaning operations.

The sophisticated bowl design is optimized to achieve even greater water savings than traditional flushing systems. The directed flow harnesses the power of the Vortex using the minimum amount of water required, while the rimless architecture is engineered to minimize any water splashing during flushing, further improving efficiency. Twist is not only about hygiene and saving water: the system is also designed to reduce noise to the greatest extent possible, ensuring a high level of quietness that contributes to well-being in the bathroom environment.

Currently implemented in the bowls of the Glam collection and being extended to Teorema 2.0 and the new Skinny sanitaryware collection, Twist integrates seamlessly with Scarabeo's clean, elegant design lines.

Twist is rotation, hygiene, quietness.

scarabeo

BioKer

La continua ricerca di soluzioni ecosostenibili ed il supporto di laboratori esterni ha permesso a Scarabeo Ceramiche di mettere a punto un processo a caldo, che consente di rendere battericida al 99,9% la superficie ceramica trattata. Le superfici trattate con Scarabeo BioKer riducono drasticamente la tensione superficiale dell'acqua, che invece di rotolare via dalla superficie, in gocce separate, scorre via come una pellicola ultra-sottile, rimuovendo al contempo le particelle di sporco e rendendo meno facile il deposito del calcare. Questa proprietà "Easy-to-clean" consente un basso utilizzo di prodotti per la pulizia ed un minore consumo di acqua, ottenendo così un più basso impatto ambientale. Conforme alle normative di sicurezza BioKer è stato testato e certificato secondo le norme ISO22196 ed il nuovo metodo di test antibatterico ASTM E3031-15 specifico per le superfici ceramiche.

The constant research into eco-sustainable solutions, with the support of external laboratories, has enabled Scarabeo Ceramiche to develop a thermal process that makes the treated ceramic surface 99.9% bactericidal. Surfaces treated with Scarabeo BioKer drastically reduce the surface tension of water. Instead of beading up and rolling away, the water spreads out into an ultra-thin film, removing dirt particles and making limescale deposits less likely to form. This "Easy-to-clean" property allows for low use of cleaning products and reduced water consumption, resulting in a lower environmental impact. The process is compliant with safety regulations and has been tested and certified according to ISO 22196 and the new ASTM E3031-15 antibacterial testing method specific for ceramic surfaces.

BioPure

Scarabeo Biopure è il rivestimento esclusivo applicato su tutta la produzione del brand, sviluppato attraverso una ricerca interna avanzata e un processo di cottura superiore alle 24 ore che consente una vetrificazione più compatta della ceramica. Questa tecnologia riduce in modo significativo la porosità superficiale, migliorando in modo sensibile qualità, resistenza e prestazioni del materiale. La superficie risultante offre una elevata resistenza all'usura e all'abrasione, limitando l'adesione e la proliferazione batterica e garantendo standard igienici superiori. Le sue proprietà idrorepellenti favoriscono lo scorrimento dell'acqua e semplificano la pulizia quotidiana, permettendo di ridurre l'uso di detersivi e acqua e contribuendo a un impatto ambientale più contenuto.

Scarabeo Biopure is the exclusive coating applied to the entire brand's production, developed through advanced internal research and a firing process exceeding 24 hours, which allows for a more compact vitrification of the ceramic. This technology significantly reduces surface porosity, noticeably improving quality, durability, and performance of the material. The resulting surface offers high resistance to wear and abrasion, limiting bacterial adhesion and proliferation, and ensuring superior hygienic standards. Its water-repellent properties facilitate water flow and simplify daily cleaning, reducing use of detergents and water and contributing to a lower environmental impact.

Certifications

Tutti i prodotti Scarabeo rispettano le normative vigenti in tema di sicurezza e comfort, garantendo resistenza all'uso quotidiano e prestazioni costanti nel tempo. La nostra ceramica nasce da un saper fare artigianale che integra tecnologie evolute, per un design durevole nella materia e nello stile.

Il marchio CE certifica che ogni articolo è realizzato con materiali testati e processi produttivi controllati, conformi alle direttive comunitarie sulla sicurezza. Le prove rigorose a cui i prodotti sono sottoposti assicurano al cliente finale una scelta affidabile, pensata per durare nel tempo.

All Scarabeo products comply with current regulations on safety and comfort, ensuring resistance to everyday use and consistently high performance over time. Our ceramic is the result of artisanal know-how combined with advanced technologies, for a design that is durable both in substance and in style.

The CE mark certifies that each item is made with tested materials and controlled production processes, in full compliance with European safety directives. The rigorous tests our products undergo guarantee the end customer a reliable choice, designed to stand the test of time.

Di seguito sono riportate le norme di riferimento relative alla marcatura CE:

- UNI EN 14688 per lavabi
- UNI EN 997 per WC
- UNI EN 14528 per bidet

Scarabeo ha studiato un sistema che garantisce lo scarico dei suoi WC sospesi, terra e monoblocco con 4,5 litri d'acqua e meno.

The following are the reference standards relative to the CE marking:

- UNI EN 14688 for washbasins
- UNI EN 997 for WCs
- UNI EN 14528 for bidets

Scarabeo studied a new system granting the drainage for its wall hung, floor-standing and monoblock WC with 4.5 litres and even less.

Les normes fonctionnelles de référence pour le marquage CE sont:

- UNI EN 14688 pour les lavabos
- UNI EN 997 pour les WC
- UNI EN 14528 pour les bidets

Scarabeo a étudié un nouveau système qui assure la chasse de ses cuvettes suspendues, à poser ou monobloc avec 4.5 litres d'eau et moins.

Die Bezugsnormen für das CE-Zeichen sind:

- UNI EN 14688 für Waschtische
- UNI EN 997 für WC
- UNI EN 14528 für Bidet

Scarabeo hat für seine Hänge-, Stand- und Kombinations-WCs ein System entwickelt, das nur 4,5 Liter Wasser pro Spülung verbraucht und weniger.

Las normas funcionales de referencia para la marca CE son:

- UNI EN 14688 para lavabos
- UNI EN 997 para inodoros
- UNI EN 14528 para bidé

Scarabeo ha estudiado un sistema que garantiza el desagüe de sus inodoros suspendidos, tierra y mono bloque con 4,5 litros de agua y menos.

Справочные рабочие нормативы для маркировки CE:

- UNI EN 14688 для моек
- UNI EN 997 для унитазов
- UNI EN 14528 для биде

Scarabeo разработала систему, обеспечивающую слив ваших подвесных, напольных и моноблочных унитазов емкостью 4,5 литров воды и меньше.

DESIGNER

Giovanni Calisti

Giovanni Calisti dedicates himself to art studies and in 1996 gets the qualification of “Maestro d’Arte della Ceramica” (Master of Ceramic Arts). His big passion flew into very appreciated painting and sculpture. He diversifies his activities from creation of artworks to modelling wash basins for a long-established factory in Civita Castellana named ICA. In 1974 he creates SCARABEO, a factory producing exclusively bathroom accessories that makes a name for itself in the European market in few years. In the middle of the nineties he designs different ranges of basins effortlessly. To this day, these ranges are some of the most appreciated of SCARABEO. Always searching for new stimulus, he charts new courses thanks to his clear strategy based on design.

Giovanna Talocci

Interior architect and designer since the 1970s. A natural curiosity for innovation, material research and technology, profound observation of the surrounding reality enabled her to design for prestigious companies, in completely unrelated fields. The same traits are now the pivotal elements in the work of the Talocci Design studio, which specialises in: product design, exhibition design, interior design, event organisation, integrated communication, art direction. Giovanna Talocci has received numerous acknowledgments, among them three ADI Design Index selections, four referrals at the Compasso D’Oro award and four Design Plus prizes. Alongside her design activities, she also works as cultural events curator and consultant for various trade exhibitions, anchor woman and guest of television programmes on design, and lecturer at universities and design schools. She has been a member of ADI (Industrial Design Association) since 1979 and of the ADI National Steering Committee since 2004. In addition, she was a member of the first Italian Council for Design.

Massimiliano Braconi

Designer, painter and sculptor, he diversified his activities to include the creation of artistic works, setting up of temporary architectural works and installations, and interior furnishing and design. In 2002, he opened his studio – situated in the Viterbo area – and quite naturally made his way into the sanitary ceramics production industry. He designs various collections for companies of the sector and collaborates with Scarabeo on a stable basis.

Emo Design

Lukasz Bertoli _ Graduated in Industrial Design at Politecnico di Milano, Lukasz soon began collaborating with Polidesign and TD studio to develop products for many famous Italian companies such as Chicco and Gardesa. From 2004 to 2008 he was a senior industrial designer at GP designpartners in Vienna where his responsibilities included designing products for brands like Philips, Siemens, Citroen, Doppelmayr, Vienna Acoustics, Tchibo, NXP, Boesendorfer, HEI, Conlastic. Carlo Ciciliot _ Born in 1982 Carlo graduated in International Relationships at Università degli Studi di Bologna with a Master’s in Organization and Economic Development (MOSE) at Profingest Management School. After an important experience at the marketing office of a well established group in the construction sector, he became account manager at Emo design consultancy in 2009.

**Massimiliano
Abati**

Civita Castellana – Month of the Swallows – 1975. He studied art and trained at the Faculty of Architecture at La Sapienza University of Rome. From a very young age, he was drawn to visual imagery, quickly developing clear methodologies for project analysis. In 1997, he joined Paolo Portoghesi's studio as a student-collaborator, working on numerous projects, exploring and developing new stylistic codes, and learning how to give depth to design ideas. From 2002, he began working as a freelancer, taking his first steps in fashion and entertainment agencies. Around the same time, he also approached design, coming into contact with leading furniture and bathroom furnishing companies. He started with GSG Ceramic Design, creating several bath concepts with a strong emotional impact. In 2010, he designed the Albergo shower system for Flaminia, a suggestive and visionary project. He is currently artistic director for several companies, including Scarabeo Ceramiche, where he focuses on communication, design, and interiors.

**Studio
Adolini**

Studio Adolini is an architectural and graphic design firm founded in 1984. It operates in various areas and its past projects include single family homes, residential, commercial and industrial complexes, sports buildings and places of worship. It has worked on numerous restorations of monuments and renovations of industrial and residential complexes. It also provides interior design services, trade fair exhibition stands, museum décor, residential furnishings and business show rooms. It has received various awards and acknowledgements. The partners of the firm are Romano Adolini and Niccolò Adolini.

**Chiara
Valeri**

Born in Rome on 21st March 1969, she completed her artistic studies by earning the title of "Master Ceramics Artist" in 1988, after which she began to dedicate herself to artistic ceramics. Subsequently, in 1990, she earned a Diploma in Applied Arts from the "Ulderico Midossi" State Institute of Art in Civita Castellana. In 1990 she graduated from the Rome Fine Arts Academy with a degree in Theatre and Cinema Scenic Design with full marks. She initially embarked on a career in theatre scenic design and subsequently continued her studies in furnishing and design issues. She has created interior design projects for both private customers and retail businesses, while simultaneously collaborating with companies operating in the bathroom furnishing and crockery sectors for outfitting trade fair stands. Since 1997 she has been predominantly focusing on the industrial design sector by collaborating with companies operating in the Civita Castellana industrial scenario.

SCARABEO AWARDS

In Scarabeo progettare significa andare oltre i confini della ceramica per immaginare nuovi scenari dell'abitare contemporaneo. Ogni prodotto nasce dall'incontro tra ricerca formale, competenza tecnica e una costante attenzione alla sostenibilità dei materiali e dei processi. I numerosi premi ricevuti non celebrano soltanto l'estetica, ma riconoscono la "soluzione intelligente": un equilibrio evoluto tra innovazione tecnologica, durabilità, uso efficiente delle risorse e qualità d'uso nel tempo.

Dalla rigorosa selezione tecnica del Design Plus di Francoforte, che premia prodotti capaci di coniugare funzione, tecnologia e design, fino all'approccio olistico degli Iconic Awards, dove i nostri articoli sono considerati veri elementi di architettura d'interni, il nostro palmarès racconta una storia di crescita costante e di visione a lungo termine.

Che si tratti di icone ormai consolidate come Bucket e Mizu, o delle collezioni più recenti come Sesto, Laila e le nuove proposte per la zona doccia e vasca, ogni riconoscimento conferma l'impegno di Scarabeo nel progettare soluzioni contemporanee, durevoli e responsabili. Il sigillo dei premi internazionali diventa così una garanzia per progettisti, rivenditori e utenti finali: scegliere Scarabeo significa scegliere prodotti tecnicamente all'avanguardia, pensati per le sfide dell'abitare sostenibile di oggi e di domani.

For Scarabeo, design means going beyond the boundaries of ceramic to imagine new scenarios for contemporary living. Every product stems from the encounter between formal research, technical expertise and a constant focus on the sustainability of materials and processes. The numerous awards we have received do not simply celebrate aesthetics, but acknowledge the "smart solution": an advanced balance of technological innovation, durability, efficient use of resources and long-term performance.

From the rigorous technical selection of the Design Plus award in Frankfurt, which honours products able to combine function, technology and design, to the holistic approach of the Iconic Awards, where our pieces are regarded as true interior architecture elements, our track record tells a story of steady evolution and long-term vision.

Whether we are talking about established icons such as Bucket and Mizu, or newer collections like Sesto, Laila and the latest proposals for shower and bathtub areas, each recognition confirms Scarabeo's commitment to designing contemporary, durable and responsible solutions. The seal of international awards thus becomes a real guarantee for designers, retailers and end users: choosing Scarabeo means choosing state-of-the-art products, conceived for the challenges of sustainable living today and in the future.

Ente Conferitore: Messe Frankfurt in collaborazione con il German Design Council (Rat für Formgebung).

Descrizione del Premio: Il Design Plus è uno dei riconoscimenti più autorevoli e tecnicamente rigorosi nel panorama globale dell'arredo bagno e della tecnologia HVAC. Assegnato esclusivamente durante la fiera ISH di Francoforte, l'evento leader mondiale del settore, questo premio non si limita a valutare l'estetica superficiale. Una giuria di esperti indipendenti analizza la "soluzione intelligente": l'innovazione tecnologica, l'efficienza nell'uso delle risorse (acqua ed energia), la sostenibilità dei materiali e la facilità d'uso. Il sigillo "Design Plus" segnala al mercato prodotti che sono tecnicamente all'avanguardia e pronti per le sfide future dell'abitare sostenibile.

È considerato un benchmark di qualità tecnica e affidabilità industriale da architetti, progettisti e installatori di tutto il mondo. Viene conferito ad aziende espositrici a ISH che dimostrano un connubio eccellente tra design, ecologia e tecnologia.

Premi Scarabeo: Laila (2023), Mizu e Bucket (2017).

Awarding Body: Messe Frankfurt in collaboration with the German Design Council (Rat für Formgebung).

Award Description: The Design Plus is one of the most authoritative and technically rigorous awards in the global landscape of bathroom furnishings and HVAC technology. Awarded exclusively during the ISH trade fair in Frankfurt, the world's leading event for the sector, this prize does not merely assess superficial aesthetics. An independent jury of experts analyzes the "intelligent solution": technological innovation, resource efficiency (water and energy), material sustainability, and ease of use. The "Design Plus" seal signals to the market products that are technically cutting-edge and ready for the future challenges of sustainable living.

It is considered a benchmark for technical quality and industrial reliability by architects, designers, and installers worldwide. It is conferred upon exhibiting companies at ISH that demonstrate an excellent combination of design, ecology, and technology.

Scarabeo Awards: Laila (2023), Mizu and Bucket (2017).

GERMAN DESIGN AWARD

Ente Conferitore: German Design Council (Rat für Formgebung), Francoforte.

Descrizione del Premio: Istituito nel 1953 su iniziativa del Bundestag tedesco, il German Design Award è il premio ufficiale del design della Germania e uno dei più prestigiosi al mondo. Spesso definito il “premio dei premi”, si distingue per un processo di selezione estremamente severo: per anni l'accesso è stato possibile solo tramite nomination diretta del Consiglio, garantendo un livello qualitativo medio elevatissimo. La giuria internazionale valuta i prodotti secondo criteri olistici che includono ergonomia, funzionalità, qualità ecologica e design universale.

Icona del design mitteleuropeo. Vincere questo premio significa superare gli standard più elevati dell'industria tedesca e posizionarsi nell'élite del design globale. Viene conferito a prodotti e progetti che rappresentano contributi pionieristici nel panorama del design tedesco e internazionale.

Premi Scarabeo: Veil (Winner 2020), Bucket (Special Mention 2017), Fuji e Mizu (Special Mention 2016).

Awarding Body: German Design Council (Rat für Formgebung), Frankfurt.

Award Description: Established in 1953 on the initiative of the German Bundestag, the German Design Award is the official design prize of Germany and one of the most prestigious in the world. Often referred to as the “award of awards,” it is distinguished by an extremely rigorous selection process: for years, entry was only possible through direct nomination by the Council, guaranteeing an exceptionally high average quality level. The international jury evaluates products according to holistic criteria, including ergonomics, functionality, ecological quality, and universal design.

An icon of Central European design. Winning this award means surpassing the highest standards of German industry and positioning oneself among the elite of global design. It is conferred upon products and projects that represent pioneering contributions to the German and international design landscape.

Scarabeo Awards: Veil (Winner 2020), Bucket (Special Mention 2017), Fuji and Mizu (Special Mention 2016).

iF DESIGN AWARD

Ente Conferitore: iF International Forum Design GmbH, Hannover.

Descrizione del Premio: Attivo dal 1953, l'iF Design Award è un simbolo globale di eccellenza progettuale. Ogni anno, una giuria composta da oltre 130 esperti di design provenienti da tutto il mondo valuta migliaia di candidature (oltre 11.000 da 70 paesi nel 2025) attraverso un rigoroso processo basato su cinque criteri fondamentali: Idea, Forma, Funzione, Differenziazione e Impatto. Il premio celebra il design che serve l'utente, combinando bellezza estetica con utilità pratica e responsabilità sociale.

Riconosciuto universalmente (Europa, America, Asia) come uno dei tre premi di design più importanti al mondo (insieme a Red Dot e IDEA). Il logo iF è un potente strumento di marketing che rassicura il consumatore sulla qualità del prodotto. Viene conferito a prodotti che dimostrano eccellenza in tutte le dimensioni del design, dall'innovazione alla sostenibilità.

Premi Scarabeo: Picture, Gustav, Sesto, Laila (2025), Cross, Solid (2021), Veil (2019, 2018), Frame, Teorema 2.0, Glam, Up (2017).

Awarding Body: iF International Forum Design GmbH, Hannover.

Award Description: Active since 1953, the iF Design Award is a global symbol of design excellence. Each year, a jury of over 130 design experts from around the world evaluates thousands of entries (over 11,000 from 70 countries in 2025) through a rigorous process based on five key criteria: Idea, Form, Function, Differentiation, and Impact. The award celebrates user-centric design, combining aesthetic beauty with practical utility and social responsibility.

Universally recognized (Europe, America, Asia) as one of the world's three most important design awards (alongside Red Dot and IDEA). The iF logo is a powerful marketing tool that assures consumers of a product's quality. It is conferred upon products that demonstrate excellence across all dimensions of design, from innovation to sustainability.

Scarabeo Awards: Picture, Gustav, Sesto, Laila (2025), Cross, Solid (2021), Veil (2019, 2018), Frame, Teorema 2.0, Glam, Up (2017).

ICONIC AWARDS (Innovative Architecture / Interior)

Ente Conferitore: German Design Council.

Descrizione del Premio: Un premio visionario che abbatte le barriere tra le discipline. Gli Iconic Awards valutano l'architettura, l'interior design e il design di prodotto come un unico ecosistema interconnesso. La giuria premia i prodotti non come oggetti isolati, ma come elementi fondamentali capaci di definire la qualità spaziale e architettonica di un ambiente. Dal 2025, le categorie si sono fuse in un'unica piattaforma globale, sottolineando ulteriormente questo approccio olistico.

Fondamentale per il posizionamento nel settore dell'architettura di lusso e del Contract internazionale. Viene conferito a prodotti innovativi che dimostrano una perfetta integrazione nel contesto architettonico e nell'interior design.

Premi Scarabeo: Skinny, Gustav, Solid (Winner 2024), Veil (Best of Best 2020), Interior Innovation (2016).

Awarding Body: German Design Council.

Award Description: A visionary award that breaks down barriers between disciplines. The Iconic Awards assess architecture, interior design, and product design as a single, interconnected ecosystem. The jury honors products not as isolated objects, but as fundamental elements capable of defining the spatial and architectural quality of an environment. Since 2025, the categories have merged into a single global platform, further emphasizing this holistic approach. Essential for positioning within the luxury architecture and international contract sectors. It is conferred upon innovative products that demonstrate perfect integration into architectural and interior design contexts.

Scarabeo Awards: Skinny, Gustav, Solid (Winner 2024), Veil (Best of Best 2020), Interior Innovation (2016).

GOOD DESIGN AWARD

Ente Conferitore: The Chicago Athenaeum: Museum of Architecture and Design (USA).

Descrizione del Premio: Fondato nel 1950 dai maestri del modernismo Eero Saarinen, Charles e Ray Eames e Edgar Kaufmann Jr., è il più antico e storico premio di design al mondo. Il Good Design Award si concentra sulla forma pura, sull'innovazione funzionale e sull'estetica visionaria. A differenza di altri premi commerciali, ha una forte valenza culturale e curatoriale, mirando a selezionare prodotti che possano essere considerati "classici contemporanei". Un riconoscimento di altissimo valore culturale. I prodotti vincitori entrano a far parte della storia del design, spesso acquisiti nella collezione permanente del museo di Chicago. Viene conferito a Designer e produttori che spingono i confini del design industriale verso nuove vette estetiche e funzionali.

Premi Scarabeo: Step (2020), Teorema e Glam (2017), Bucket (2015).

Awarding Body: The Chicago Athenaeum: Museum of Architecture and Design (USA).

Award Description: Founded in 1950 by modernist masters Eero Saarinen, Charles and Ray Eames, and Edgar Kaufmann Jr., it is the world's oldest and most historic design award. The Good Design Award focuses on pure form, functional innovation, and visionary aesthetics. Unlike other commercial awards, it carries strong cultural and curatorial significance, aiming to select products that can be considered "contemporary classics."

A recognition of immense cultural value. Winning products become part of design history, often acquired into the Chicago museum's permanent collection. It is awarded to designers and manufacturers who push the boundaries of industrial design towards new aesthetic and functional heights.

Scarabeo Awards: Step (2020), Teorema and Glam (2017), Bucket (2015).

ARCHIPRODUCTS DESIGN AWARDS (ADA)

Ente Conferitore: Archiproducs (Network internazionale di architettura e design).

Descrizione del Premio: Il premio che celebra la “cultura del progetto”. Una giuria multidisciplinare composta da architetti, designer, fotografi e direttori creativi di fama mondiale valuta i prodotti che meglio rispondono alle esigenze della progettazione contemporanea. Gli ADA premiano la sinergia tra brand e designer, la ricerca sui materiali e la capacità del prodotto di definire nuovi scenari abitativi.

Essenziale per la visibilità digitale e la reputazione presso la community globale degli architetti e interior designer.

Premi Scarabeo: Sesto (2025), Laila (2022), Plana (2020), Hung (2017).

Awarding Body: Archiproducs (International architecture and design network).

Award Description: The award that celebrates “design culture.” A multidisciplinary jury composed of world-renowned architects, designers, photographers, and creative directors evaluates products that best respond to the needs of contemporary design. The ADA Awards honor the synergy between brand and designer, material research, and the product’s ability to define new living scenarios.

Essential for digital visibility and reputation within the global community of architects and interior designers.

Scarabeo Awards: Sesto (2025), Laila (2022), Plana (2020), Hung (2017).

A' DESIGN AWARD & COMPETITION

Ente Conferitore: A' Design Award (Como, Italia).

Descrizione del Premio: Una competizione basata sulla meritocrazia scientifica. Utilizza una metodologia di valutazione "blind peer-review" (revisione cieca tra pari) con una vasta giuria internazionale e normalizzazione statistica dei punteggi per garantire l'imparzialità. Il premio classifica i design in livelli (Platino, Oro, Argento, Bronzo) in base al percentile di punteggio ottenuto.

Indicatore di eccellenza globale che inserisce i vincitori nel World Design Rankings. Offre una visibilità mediatica estesa su scala mondiale.

Premi Scarabeo: Fuji (Silver 2017), Teorema 2.0 (Bronze 2016).

Awarding Body: A' Design Award (Como, Italy).

Award Description: A competition based on scientific meritocracy. It employs a "blind peer-review" evaluation methodology with a large international jury and statistical normalization of scores to ensure impartiality. The award ranks designs into levels (Platinum, Gold, Silver, Bronze) based on the percentile of the score achieved.

An indicator of global excellence that places winners in the World Design Rankings. It offers extensive media visibility on a worldwide scale.

Scarabeo Awards: Fuji (Silver 2017), Teorema 2.0 (Bronze 2016).

CHINA GOOD DESIGN (CONTEMPORARY GOOD DESIGN)

Ente Conferitore: Red Dot (Germania) in collaborazione con Xiamen Culture Media Group.

Descrizione del Premio: Questo premio rappresenta l'estensione del rigore valutativo tedesco del Red Dot nel mercato asiatico. Seleziona il design internazionale capace di rispondere alle esigenze, alla qualità e ai gusti del mercato cinese contemporaneo, fungendo da ponte tra il design occidentale e l'Oriente.

Chiave d'accesso strategica e certificazione di qualità per il vasto mercato asiatico delle costruzioni e del lusso.

Premi Scarabeo: Fuji, Mizu, Moai, Bucket (2016).

Awarding Body: Red Dot (Germany) in collaboration with Xiamen Culture Media Group.

Award Description: This award represents the extension of the rigorous German evaluation standards of Red Dot into the Asian market. It selects international designs capable of meeting the needs, quality standards, and tastes of the contemporary Chinese market, acting as a bridge between Western design and the East.

A strategic entry key and quality certification for the vast Asian construction and luxury market.

Scarabeo Awards: Fuji, Mizu, Moai, Bucket (2016).

GRANDS PRIX DU DESIGN

Ente Conferitore: INT. Design (Canada).

Descrizione del Premio: Nato in Quebec e divenuto internazionale nel 2020, celebra l'eccellenza nell'ambiente costruito e nel design di prodotto. Una giuria multidisciplinare di élite valuta i progetti per il loro contributo alla qualità della vita e all'innovazione. Importante riconoscimento per il mercato nordamericano (Canada e USA), segnala l'eccellenza del design europeo oltreoceano.

Premi Scarabeo: Plana (Gold Certification 2022).

Awarding Body: INT. Design (Canada).

Award Description: Originating in Quebec and becoming international in 2020, it celebrates excellence in the built environment and product design. An elite multidisciplinary jury evaluates projects for their contribution to quality of life and innovation. An important recognition for the North American market (Canada and USA), it signals the excellence of European design overseas.

Scarabeo Awards: Plana (Gold Certification 2022).

BIGSEE PRODUCT DESIGN AWARD

Ente Conferitore: Zavod Big (Slovenia).

Descrizione del Premio: Un riconoscimento che esplora e promuove il potenziale creativo dell'Europa sud-orientale e oltre. Premia prodotti che dimostrano ergonomia, estetica, etica ed emotività, contribuendo all'economia creativa della regione.

Connette il brand con il dinamico hub creativo dell'Europa dell'Est e dei Balcani.

Premi Scarabeo: Hung (2021).

Awarding Body: Zavod Big (Slovenia).

Award Description: An award that explores and promotes the creative potential of Southeastern Europe and beyond. It honors products that demonstrate ergonomics, aesthetics, ethics, and emotionality, contributing to the region's creative economy.

It connects the brand with the dynamic creative hub of Eastern Europe and the Balkans.

Scarabeo Awards: Hung (2021).

SCARABEO FIDIA®

DESIGN: SCARABEO CERAMICHE

SCARABEO FIDIA è la nuova collezione di lavabi d'appoggio Scarabeo che interpreta la ceramica come un volume puro, morbido e contemporaneo. Forme rotonde, ovali e rettangolari dagli angoli dolcemente smussati danno vita a bacini profondi e accoglienti, con bordi sottili che esaltano la leggerezza del design senza rinunciare alla robustezza della materia.

Nata da un saper fare artigianale che dialoga con tecnologie evolute, SCARABEO FIDIA è pensata per integrarsi con naturalezza su piani in legno o ceramica, diventando il fulcro visivo dell'ambiente bagno. La collezione è disponibile nelle finiture ceramiche della palette Scarabeo, lucide e opache, per creare composizioni coordinate o giochi di contrasto materico e cromatico. Essenziale, elegante e trasversale negli abbinamenti, SCARABEO FIDIA è la risposta a chi cerca un lavabo dal design raffinato, durevole nel tempo e capace di interpretare stili diversi, dal minimalista al più decorativo.

SCARABEO FIDIA is Scarabeo's new collection of countertop washbasins, interpreting ceramic as a pure, soft, contemporary volume. Round, oval and rectangular shapes with gently rounded corners create deep, welcoming bowls with slim edges that enhance the lightness of the design while preserving the strength of the material.

Born from artisanal know-how combined with advanced technology, SCARABEO FIDIA is designed to sit naturally on wooden, or ceramics tops, becoming the visual focal point of the bathroom. The collection comes in the glossy and matt finishes of the Scarabeo ceramic palette, allowing coordinated compositions or refined contrasts of colour and texture. Essential, elegant and highly versatile, SCARABEO FIDIA is the answer for those seeking a refined, long-lasting washbasin that can adapt to different styles, from minimal to more decorative interiors.

SCARABEO YUGO® - The art of fusion

DESIGN: STUDIO ADOLINI

Dall'incontro tra il rigore del quadrato e la purezza del cerchio nasce SCARABEO YUGO, una collezione di lavabi in ceramica che celebra l'armonia delle forme e la bellezza dell'equilibrio.

Alla base, la solidità del quadrato, simbolo di stabilità e radicamento. Verso l'alto, la forma si trasforma, si ammorbidisce, si apre al cerchio, emblema di continuità e perfezione. Tra queste due geometrie si compie una fusione fluida, un passaggio naturale che racconta il dialogo tra opposti: la forza e la leggerezza, la materia e lo spazio, la precisione e la poesia.

Il nome SCARABEO YUGO, che in giapponese significa fusione, racchiude l'essenza di questo equilibrio. Non solo un richiamo linguistico, ma un omaggio allo spirito del Giappone, dove la semplicità diventa arte e la forma si fa meditazione.

Le linee di SCARABEO YUGO sono essenziali, pure, libere da ogni superfluo. La loro sobrietà è pensata per accogliere la luce e accompagnarla, trasformando il lavabo in un elemento di quiete visiva, capace di fondersi con l'ambiente e di esprimere una calma profonda.

Con SCARABEO YUGO, la geometria si fa emozione: un equilibrio perfetto tra razionalità e grazia, dove ogni curva e ogni spigolo trovano il loro spazio, come in un gesto di armonia senza tempo.

From the encounter between the rigor of the square and the purity of the circle comes SCARABEO YUGO, a collection of ceramic sinks that celebrates the harmony of forms and the beauty of balance.

At the base, the solidity of the square, a symbol of stability and rootedness. As it rises, the shape transforms, softens, and opens to the circle, an emblem of continuity and perfection. Between these two geometries, a fluid fusion takes place, a natural transition that expresses the dialogue between opposites: strength and lightness, matter and space, precision and poetry.

The name SCARABEO YUGO, which in Japanese means fusion, captures the essence of this balance. Not just a linguistic reference, but a tribute to the spirit of Japan, where simplicity becomes art and form becomes meditation.

The lines of SCARABEO YUGO are essential, pure, free from all superfluity. Their understated elegance is designed to catch the light, transforming the sink into an element of visual tranquility, capable of blending with the environment and expressing profound calm.

With SCARABEO YUGO, geometry becomes emotion: a perfect balance between rationality and grace, where every curve and every edge finds its place, as in a gesture of timeless harmony.

SKINNY

DESIGN: STUDIO ADOLINI

SKINNY è la nuova collezione di sanitari e lavabi disegnata dallo Studio Adolini per Scarabeo Ceramiche. Caratterizzata da una simmetria esterna dove le forme, rigorose e geometriche, creano una presenza elegante nella sala da bagno, la collezione SKINNY affascina per il movimento sinuoso e organico dettato dall'interno del lavabo che si identifica con l'armonia della natura.

La forma di SKINNY si ispira al processo naturale di levigazione della roccia: un cuore organico dove le curve fluide e morbide raccontano la storia di un'evoluzione paziente e sapiente.

I sanitari della serie SKINNY implementano lo scarico di tipo "tornado" TWIST®, innovativo sistema di scarico brevettato da Scarabeo e progettato per rivoluzionare l'igiene, il risparmio idrico e la silenziosità nel bagno. Il cuore di TWIST® risiede nella sua tecnologia a Vortice (Vortex): il design interno del vaso genera un potente flusso d'acqua circolare orizzontale ad alta velocità. Questa azione di risciacquo a vortice assicura la pulizia totale dell'intera superficie interna, garantendo la massima igiene. Come sistema rimless (o senza brida) il vaso elimina il tradizionale bordo contenitivo, prevenendo l'accumulo di sporco e batteri e semplificando drasticamente le operazioni di pulizia.

SKINNY is the new collection of sanitaryware and washbasins designed by Studio Adolini for Scarabeo Ceramiche. Characterized by an outer symmetry where rigorous, geometric shapes create an elegant presence in the bathroom the SKINNY collection captivates with the sinuous, organic movement shaped from within the basin, echoing the harmony of nature.

SKINNY's form is inspired by the natural process of rock smoothing: an organic core where soft, flowing curves tell the story of a patient, masterful evolution.

The SKINNY sanitaryware range features the TWIST® "tornado" flush, Scarabeo's innovative patented flushing system designed to revolutionize hygiene, water saving and quietness in the bathroom. The core of TWIST® lies in its Vortex technology: the internal design of the bowl generates a powerful, high-speed horizontal circular flow of water. This vortex rinsing action ensures total cleaning of the entire inner surface, guaranteeing maximum hygiene. As a rimless system, the bowl eliminates the traditional rim, preventing the build-up of dirt and bacteria and drastically simplifying cleaning operations.

GLAM

DESIGN: EMO DESIGN

Da mini a maxi in una sola collezione. Questo è il mood che ha ispirato EMO Design nella progettazione di questa nuova serie di lavabi. Dalle linee gentili e raffinate, i lavabi Glam nascono dalla volontà di mostrare il knowhow di Scarabeo Ceramiche attraverso la creazione di prodotti in ceramica dai bordi sottilissimi ma con una forte resistenza. Il design pulito e allineato alle tendenze contemporanee del mercato, rende la collezione trasversale ed adattabile a diverse situazioni sia in ambito abitativo che per la comunità o il contract.

I sanitari della serie GLAM implementano lo scarico di tipo “tornado” TWIST®, innovativo sistema di scarico brevettato da Scarabeo e progettato per rivoluzionare l'igiene, il risparmio idrico e la silenziosità nel bagno. Il cuore di TWIST® risiede nella sua tecnologia a Vortice (Vortex): il design interno del vaso genera un potente flusso d'acqua circolare orizzontale ad alta velocità. Questa azione di risciacquo a vortice assicura la pulizia totale dell'intera superficie interna, garantendo la massima igiene. Come sistema rimless (o senza brida) il vaso elimina il tradizionale bordo contenitivo, prevenendo l'accumulo di sporco e batteri e semplificando drasticamente le operazioni di pulizia.

From mini to maxi within a single collection. This is the mood that inspired EMO Design when creating this new basin range. With gentle, refined lines, Glam washbasins were born from the desire to showcase Scarabeo Ceramiche's know-how through the creation of ceramic products featuring ultra-thin edges combined with outstanding strength. Clean design, aligned with contemporary market trends, makes the collection versatile and adaptable to a wide variety of settings—both residential and in public, community or contract environments.

The GLAM sanitaryware range features the TWIST® “tornado” flush, Scarabeo's innovative patented flushing system designed to revolutionize hygiene, water saving and quietness in the bathroom. The core of TWIST® lies in its Vortex technology: the internal design of the bowl generates a powerful, high-speed horizontal circular flow of water. This vortex rinsing action ensures total cleaning of the entire inner surface, guaranteeing maximum hygiene. As a rimless system, the bowl eliminates the traditional rim, preventing the build-up of dirt and bacteria and drastically simplifying cleaning operations.

TEOREMA 2.0 Ultraslim

DESIGN: GIOVANNI CALISTI

TEOREMA 2.0 Ultraslim è il lavabo con un'anima sottile ma dalle dimensioni generose. Un inconsueto e piacevole contrasto tra l'ampiezza del bacino e la leggerezza dei suoi bordi che misurano soltanto pochi millimetri. Un design elegante ed essenziale che coniuga bellezza e praticità. Adatto ad ogni tipologia di abitazione, TEOREMA 2.0 Ultraslim racchiude in sé quelle caratteristiche funzionali dettate dalle proprie dimensioni che lo rendono un oggetto dalla massima fruibilità anche nelle case dotate di un solo bagno.

TEOREMA 2.0 Ultraslim is a washbasin with a slender soul and generous dimensions: a refined balance between the ample bowl and the lightness of the rim, just a few millimetres thick. An elegant, essential design that combines contemporary aesthetics with everyday comfort. Suitable for any type of home, TEOREMA 2.0 Ultraslim offers carefully studied proportions to ensure maximum usability, making it the ideal solution even in houses with only one bathroom.

TEOREMA 2.0 Plus

DESIGN: GIOVANNI CALISTI

Caratterizzata da rigore, eleganza e semplicità, e capace di mantenere nel tempo la propria essenza di design, TEOREMA ha vissuto la sua prima evoluzione con la versione 2.0 Ultraslim, che ha portato a un sostanziale alleggerimento dei bordi, oggi ridotti a soli 6 mm. Oggi TEOREMA 2.0 si presenta anche nella versione PLUS, con dimensioni più generose ed un'altezza del lavabo ridotta: sei nuove proposte dall'aspetto più slim, ma con maggiore aggetto dalla parete per facilitare l'avvicinamento e l'utilizzo. I nuovi lavabi TEOREMA 2.0 PLUS misurano 53 cm di profondità per 12 cm di altezza. Grazie a queste proporzioni e allo scarico spostato verso il lato muro, la collezione diventa "senza barriere", consentendo la certificazione anche nell'ambito dei prodotti idonei all'utilizzo da parte di persone con disabilità.

Defined by rigor, elegance and simplicity, and able to preserve its design essence over time, TEOREMA has undergone its first evolution with the 2.0 Ultraslim version, which has led to a substantial lightening of the rim, now reduced to just 6 mm. Today TEOREMA 2.0 is also available in the PLUS version, with more generous dimensions and a reduced basin height: six new washbasins with a slimmer look and a greater projection from the wall, to make approach and use easier.

The new TEOREMA 2.0 PLUS washbasins measure 53 cm in depth and 12 cm in height. Thanks to these proportions and to the waste outlet shifted towards the wall side, the collection becomes "barrier-free", allowing certification as a range of products suitable for use by people with disabilities.

MOON

DESIGN: MASSIMILIANO BRACONI

“Ho ricercato un oggetto semplice, elegante, sinuoso e senza forma ispirandomi a semplici elementi urbani. Ho pensato ad un elemento adattabile al frenetico nostro consumismo ma fisicamente ricercato. Un prodotto dalle forme accoglienti ma generose, in previsione di un nuovo minimalismo umano”.

“I envisaged a simple, elegant, sinuous and shapeless object inspired by simple urban elements. The element I conceived is physically sophisticated yet suited to our frenetic consumerism. A product with large, embracing forms that reflects a new human minimalism”.

BUCKET

Design: Giovanna Talocci

La serie BUCKET si distingue per il suo profilo iconico che richiama il secchiello, reinterpretato in diverse dimensioni e decori ceramici Made in Italy. Un oggetto quotidiano, simbolo di gioco e semplicità, diventa elemento di design per il bagno trasformandosi in lavabo o lavamano. Il manico, parte integrante del progetto formale, si trasforma in pratico portasciugamano, sia nelle versioni con attacco a parete sia in quelle da appoggio.

The BUCKET collection stands out for its iconic shape inspired by a bucket, reinterpreted in different sizes and Made in Italy ceramic decorations. An everyday object, a symbol of playfulness and simplicity, becomes a bathroom design feature by turning into a washbasin or handbasin. The handle, an integral part of the design, functions as a practical towel rail in both wall-hung and countertop versions.

BUCKET DECORATIONS

L'ampia scelta decorativa, dal total white che risalta le forme ai decori geometrici, evocativi o ironici (come il pesciolino che salta dall'acqua), la rende adatta a spazi pubblici: palestre, ristoranti, locali e scuole, ma anche a bagni per la camera dei ragazzi o per chi ama osare con un arredo del bagno piuttosto informale.

Thanks to the wide offer of decorations, beginning from total white bringing out shapes to geometric, evocative or ironic decorations (like the small fish jumping out of water) it is fit for public places like gyms, restaurants, pubs and schools, but even for child bathrooms or for those who love daring with an informal style in their own bathroom.

PLANET

DESIGN: MASSIMILIANO BRACONI

Una struttura avvolgente che richiama i vecchi recipienti di un tempo, reinterpretata in chiave contemporanea. Linee sobrie e compatte danno vita ad un progetto d'arredo completo, ideale per ambienti bagno essenziali ma raffinati. La ceramica, lavorata con grande cura nei dettagli, garantisce superfici estremamente pulite ed ergonomiche, per un prodotto durevole, confortevole e autenticamente Made in Italy.

An enveloping shape that recalls vintage containers, reinterpreted in a contemporary key. Simple, compact lines define a complete bathroom concept, ideal for essential yet refined interiors. The ceramic, crafted with great attention to detail, ensures extremely clean and ergonomic surfaces, delivering a long-lasting, comfortable product that is genuinely Made in Italy.

THIN-LINE

DESIGN: SCARABEO CERAMICHE

Design come espressione di uno stile di vita più libero e contemporaneo. Thin-Line, semplice e lineare in tutti i suoi modelli, si distingue per i bordi sottili e la ceramica Made in Italy, lavorata con cura per eliminare ogni elemento superfluo. Rigorosi nella forma e nella funzione, questi lavabi danno vita ad ambienti caldi e moderni, creando un'atmosfera essenziale ma accogliente anche nei bagni più piccoli.

Design as the expression of a freer, more contemporary lifestyle. Thin-Line, simple and linear in all its models, stands out for its thin edges and Made in Italy ceramic, crafted with care to remove anything superfluous. Strict in form and function, these washbasins create warm, modern interiors, giving even the smallest bathrooms a unique, essential yet welcoming atmosphere.

SOFT / HUNG / CUBE

DESIGN: EMO DESIGN

Rigorous and clean, the lavabo SOFT esalta la competenza di Scarabeo nella lavorazione della ceramica, qui portata ad un elevato livello di definizione. Il bordo netto e sottile crea un deciso contrasto con la delicatezza della vasca, disegnata con linee morbide che accompagnano naturalmente il fluire dell'acqua, unendo precisione formale e comfort d'uso quotidiano. HUNG è funzionalità e ottimizzazione dello spazio. Disegnato da Emo design, questo mini lavabo rettangolare in ceramica integra nella propria struttura un pratico foro portasciugamani, offrendo in pochi centimetri tutto il necessario per un bagno o un locale di servizio compatto, senza rinunciare all'estetica.

Il mini lavabo CUBE, firmato Emo design, si presenta come un vero e proprio cubo di ceramica sospeso. Un elemento dal forte carattere estetico che, nonostante le dimensioni ridotte, mantiene piena funzionalità grazie alla vasca profonda, pensata per assecondare con facilità il gesto del lavaggio delle mani anche negli spazi più contenuti.

Rigorous and clean, the SOFT washbasin showcases Scarabeo's expertise in ceramic processing, here taken to a very high level of definition. Its sharp, thin rim creates a striking contrast with the delicacy of the bowl, defined by soft lines that naturally guide the flow of water, combining formal precision with everyday comfort.

HUNG stands for functionality and smart use of space. Designed by Emo design, this rectangular ceramic mini basin incorporates a practical towel-holder opening into its main structure, providing everything needed in just a few centimetres for compact bathrooms or service areas, without compromising on style.

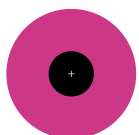

The CUBE mini basin, also designed by Emo design, appears as a true suspended ceramic cube. A piece with a strong aesthetic identity which, despite its reduced dimensions, remains highly functional thanks to its deep bowl, specifically conceived to make handwashing comfortable and easy even in the smallest spaces.

MOAI

DESIGN: MASSIMILIANO BRACONI

Dal mistero dell'Isola di Pasqua nasce la linea di lavabi MOAI. Simili a monoliti di pietra levigati dal tempo e dall'acqua, i lavabi MOAI presentano superfici morbide e sinuose che esaltano la matericità della ceramica. La loro presenza scultorea unisce l'estetica naturale delle forme pure all'innovazione del design contemporaneo, offrendo al bagno un elemento essenziale, iconico e destinato a durare nel tempo.

The MOAI range of washbasins is inspired by the mystery of Easter Island and crafted in Made in Italy ceramic. Reminiscent of stone monoliths smoothed by time and water, MOAI basins feature soft, sinuous surfaces that enhance the material quality of the ceramic. Their sculptural presence combines the natural beauty of pure forms with the innovation of contemporary design, bringing an essential, iconic and long-lasting element to the bathroom.

FUJI

DESIGN: EMO DESIGN

La collezione FUJI di Emo Design, composta da lavabo in ceramica, specchio e consolle, è grafica ed essenziale. Il linguaggio progettuale interpreta il continuo fluire dell'acqua attraverso linee convesse che si trasformano in superfici morbide, quasi a "sfiorare" l'utente. La forma armonica e precisa del lavabo, frutto di un'accurata lavorazione ceramica, è ripresa nei complementi del sistema, come gli specchi e la consolle in tondino di ferro, creando un insieme coerente e contemporaneo per l'ambiente bagno.

The FUJI collection by Emo Design, composed of a ceramic washbasin, mirror and console, is graphic and essential. The design language interprets the continuous flow of water through convex lines that evolve into soft surfaces, almost "caressing" the user. The harmonious, precise shape of the washbasin-made possible by meticulous ceramic craftsmanship-is echoed in the system accessories, such as the mirrors and iron-rod console, creating a coherent and contemporary bathroom setting.

MIZU®

DESIGN: EMO DESIGN

MIZU, disegnato da Emo Design, è un lavabo in ceramica dalla raffinata eleganza che valorizza la cura artigianale tipica del Made in Italy. Rappresenta una proposta innovativa che ripensa l'architettura del lavabo, concepito come un volume composto da più elementi che definiscono una "scozza esterna" continua e pulita. Il taglio della calotta superiore, segno grafico distintivo dell'oggetto, ha la funzione primaria di convogliare l'acqua all'interno, dove lo scarico è integrato e discreto, coniugando estetica e funzionalità.

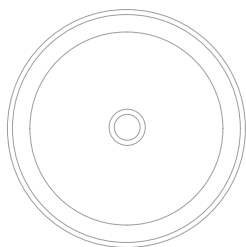

MIZU, designed by Emo Design, is an elegant ceramic washbasin that showcases the refined craftsmanship of Made in Italy. It offers an innovative approach that rethinks the traditional basin, conceived as a volume made up of several elements defining a clean, continuous external shell. The cut in the upper cap, a distinctive graphic feature of the design, has the primary function of channelling the water into the inner bowl, where the waste outlet is neatly integrated, combining aesthetics and functionality.

SEVENTY

DESIGN: STUDIO VALERI

Un design razionale ed essenziale esprime la ricerca della purezza delle forme. A partire da questo concept, lo Studio Valeri ha progettato SEVENTY, un lavabo in ceramica dalle linee semplici e chic, in cui il perimetro morbido e il piano integrato per la rubinetteria disegnano un segno contemporaneo e funzionale.

A rational, essential design expresses the search for pure shapes. Starting from this concept, Studio Valeri designed SEVENTY, a ceramic washbasin with simple, chic lines, where the soft outline and integrated tap area create a contemporary and highly functional look.

LAVABI D'ARREDO

DESIGN: GIOVANNI CALISTI

Disegnati da Giovanni Calisti per SCARABEO, i Lavabi d'Arredo rappresentano un progetto ricco di soluzioni che alterna modelli da appoggio e da incasso, per interpretare al meglio ogni ambiente bagno contemporaneo. Una collezione versatile, capace di dialogare con diversi stili d'arredo e di caratterizzare lo spazio con un segno forte ma discreto, unendo design Made in Italy e funzionalità quotidiana.

Designed by Giovanni Calisti for SCARABEO, the Lavabi d'Arredo project offers a wide range of solutions, alternating countertop and built-in basins to suit any contemporary bathroom setting. This versatile collection is able to interact with different interior styles, giving the space a strong yet discreet character, combining Made in Italy design with everyday functionality.

GAIA - TECH - MIKY

DESIGN: SCARABEO CERAMICHE

Gaia, Tech e Miky si distinguono per una linea semplice ma di forte impatto visivo. La loro forma sobria, unita alla generosa capienza dei bacini, li rende lavabi comodi e pratici nell'uso quotidiano, ideali per chi cerca funzionalità senza rinunciare al design.

Gaia, Tech and Miky stand out for their simple yet striking design. Their clean shape, combined with the generous capacity of the bowls, makes these washbasins comfortable and practical for everyday use, ideal for those who seek functionality without sacrificing style.

CASTELLANA

DESIGN: SCARABEO CERAMICHE

Castellana è un omaggio alla millenaria tradizione ceramica di Civita Castellana, reinterpretata da Scarabeo alla luce dell'evoluzione contemporanea dell'ambiente bagno. Nel corso degli anni l'azienda ha scelto di recuperare questa eredità stilistica, trasformandola in una collezione attuale, pensata per durare nel tempo.

Linee morbide, dettagli curati e superfici in ceramica smaltata esprimono un'eleganza classica, intrisa di artigianalità Made in Italy, capace di donare al bagno un'atmosfera calda e raffinata.

Castellana is a tribute to the age-old ceramic tradition of Civita Castellana, reinterpreted by Scarabeo in the light of the contemporary bathroom. Over the years, the company has chosen to rediscover and update this heritage, turning it into a collection designed to stand the test of time.

Soft lines, refined details and glazed ceramic surfaces convey a classic elegance steeped in Made in Italy craftsmanship, giving bathroom interiors a warm and sophisticated atmosphere.

BI LOOP

DESIGN: MASSIMILIANO ABATI

Bi-loop, è la nuova collezione mobili firmata da Massimiliano Abati per Scarabeo. Caratterizzata da un doppio top in ceramica dalla forma iperellittica, da qui Bi-LOOP: “un percorso che si chiude dove è iniziato”.

Una struttura in metallo che ne forma il telaio portante e che ne ricalca l'andamento nella sua forma. Si avvale di un cassetto sottostante che ne conferisce funzionalità ed eleganza.

Disponibile in nero opaco per quanto riguarda il metallo, e per la ceramica in tutti i colori scarabeo lucidi ed opachi. Il cassetto, laccato può essere in tono con la ceramica in tutte le colorazioni Scarabeo, ed in finiture lignee. BI-LOOP porta eleganza e funzionalità in un bagno alternativo e friendly.

Bi-loop is the new furniture collection designed by Massimiliano Abati for Scarabeo. Characterized by a double ceramic top with a hyper-elliptical shape hence the name Bi-LOOP, “a path that closes where it began” it features a metal structure that forms its supporting frame, echoing the same flowing outline.

It includes an underlying drawer that adds both functionality and elegance.

The metal structure is available in matte black, while the ceramic tops come in all glossy and matte Scarabeo colors. The lacquered drawer can be color-coordinated with the ceramic in any Scarabeo shade or finished in wood textures. BI-LOOP brings elegance and functionality to an alternative and friendly bathroom space.

TEOREMA 2.0

DESIGN: SCARABEO CERAMICHE

TEOREMA 2.0 è la collezione di mobili da bagno che traduce il rigore geometrico dei lavabi omonimi in volumi puri e sospesi. Frontali continui, una sottile gola orizzontale come presa integrata e proporzioni essenziali disegnano contenitori discreti, pensati per dialogare con i piani in ceramica e con i lavabi d'appoggio Scarabeo.

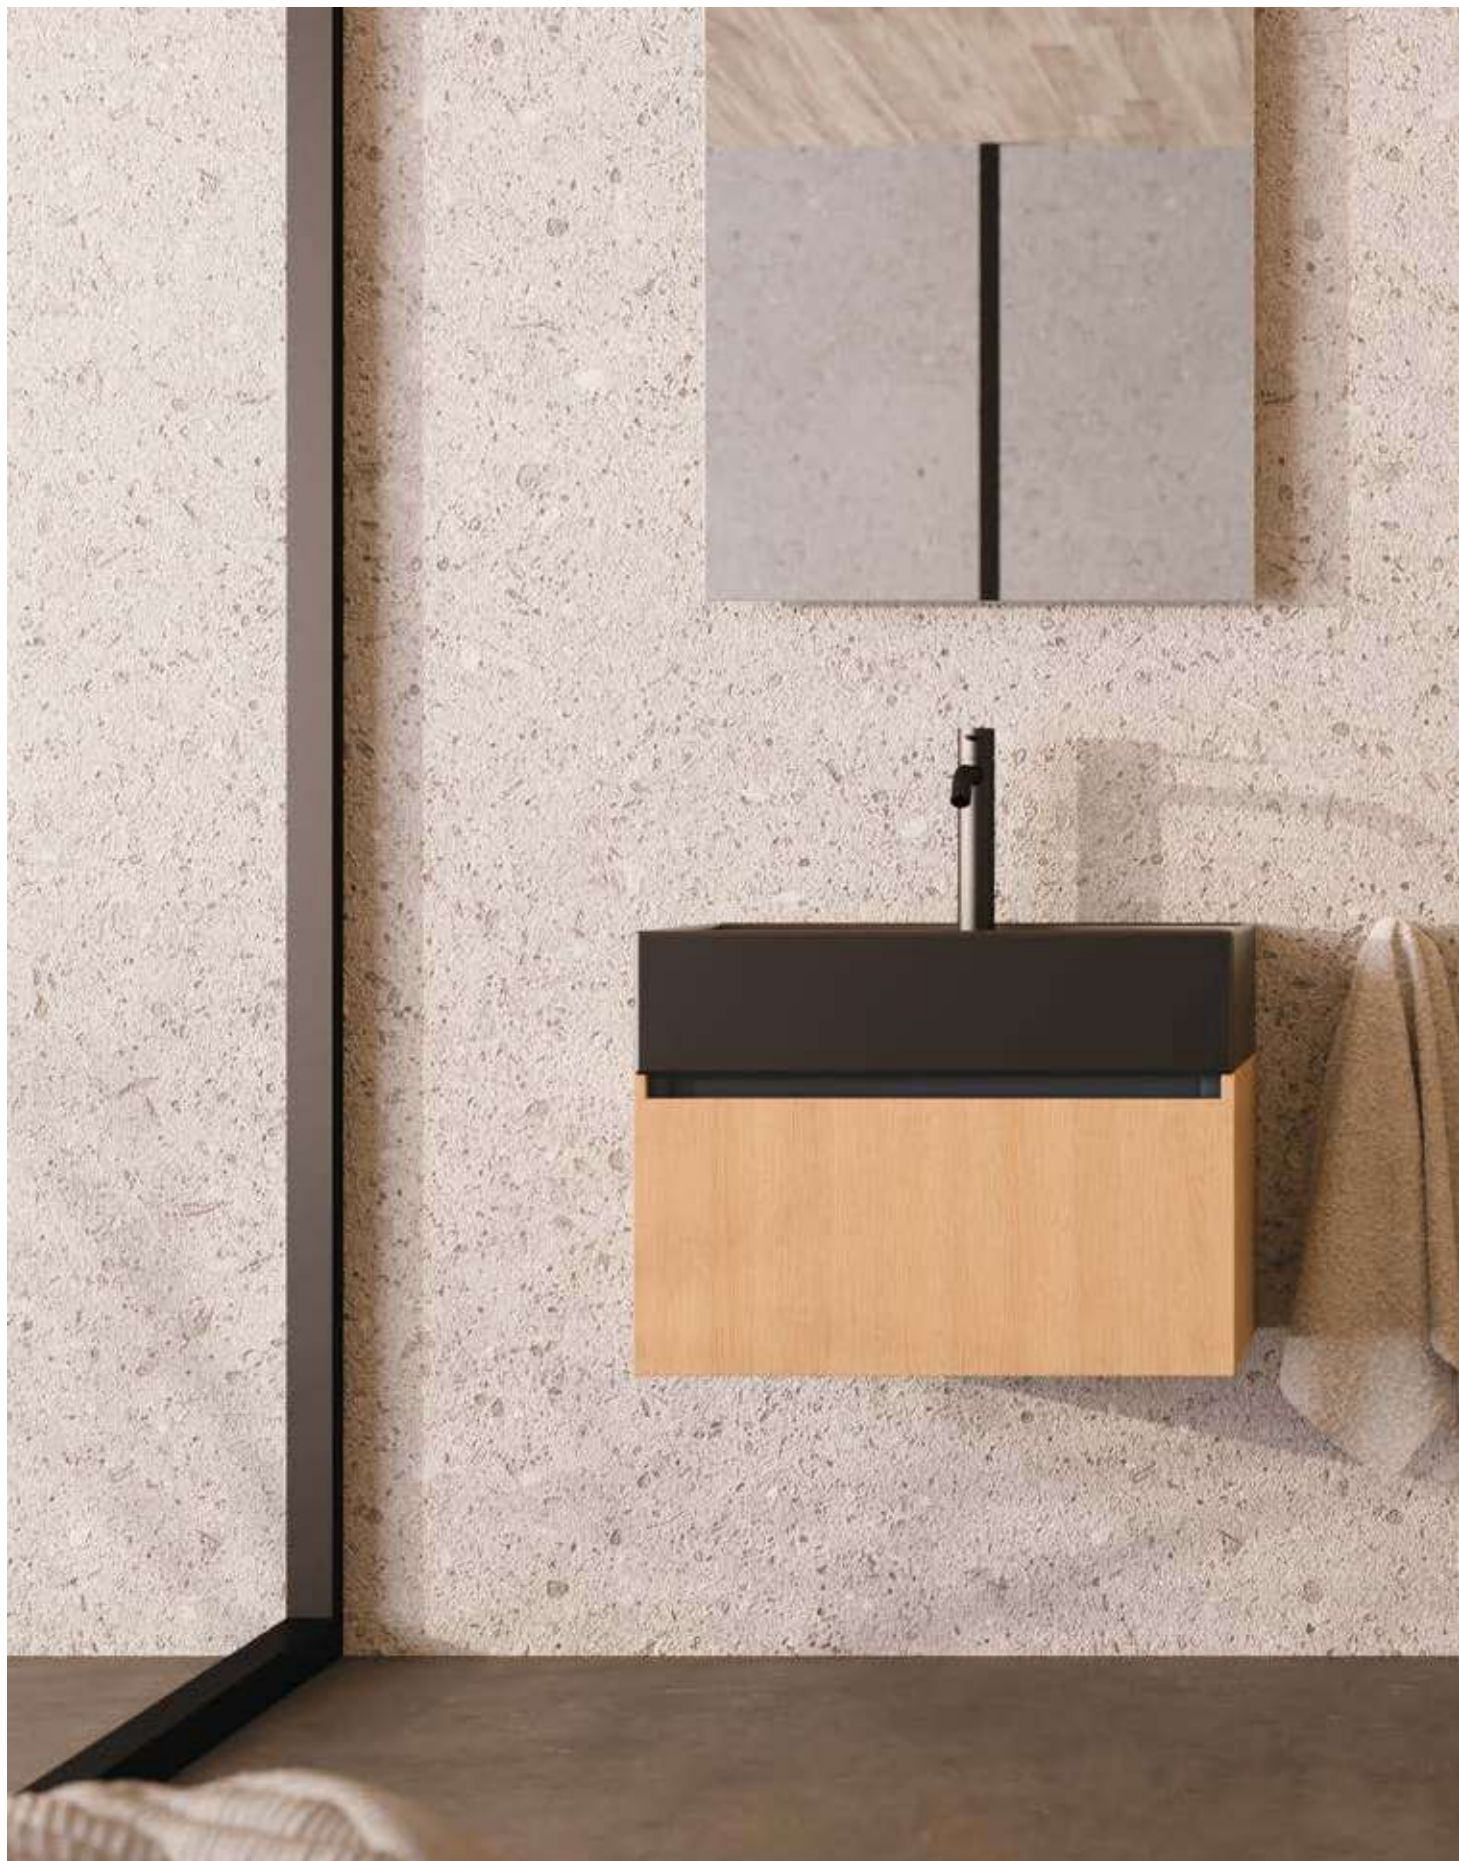

La struttura sospesa libera lo spazio a pavimento e alleggerisce visivamente l'insieme, mentre i cassetti a tutta larghezza offrono una capienza generosa e organizzata per le routine quotidiane. Le finiture, coordinate alle cromie della ceramica Scarabeo, permettono di creare composizioni tono su tono o raffinati contrasti materici, dal total black alle sfumature più calde e morbide. TEOREMA 2.0 è una proposta di arredo bagno essenziale ma sofisticata, pensata per chi cerca un'estetica contemporanea, funzionale e durevole nel tempo.

TEOREMA 2.0 is the bathroom furniture collection that translates the geometric rigour of the homonymous washbasins into pure, wall-hung volumes. Continuous fronts, a slim horizontal groove as an integrated handle and essential proportions define understated storage units designed to work seamlessly with ceramic tops and Scarabeo countertop washbasins.

The suspended structure frees up floor space and visually lightens the composition, while the full-width drawers provide generous, well-organised storage for everyday routines. Finishes coordinated with the Scarabeo ceramic palette allow for tone-on-tone solutions or refined material contrasts, ranging from total black to warmer, softer shades. TEOREMA 2.0 offers an essential yet sophisticated bathroom concept, ideal for those seeking a contemporary look that is functional and built to last.

SOLID

DESIGN: SCARABEO CERAMICHE

SOLID è la quintessenza della versatilità: diversi elementi perfettamente abbinabili e integrabili tra loro concorrono a creare soluzioni di design che rispondono ad ogni tipologia di esigenza o gusto. Protagonista del sistema è il nuovo piano in ceramica Scarabeo, resistente, facile da pulire e disponibile in numerose finiture, che dialoga con l'importante struttura in metallo (proposta nelle versioni Nero opaco, Grigio, Tortora e Oro satinato) e dotata di porta asciugamani integrato, capace di vestire alla perfezione tutti i lavabi della collezione Teorema 2.0. Con il posizionamento di una mensola in legno o di ulteriori piani in ceramica, la stessa struttura diventa una consolle fruibile per oltre 100 tipi di lavabi da appoggio. La possibilità di scegliere la ceramica dei lavabi in diversi colori consente di costruire un'identità unica e personalizzata della sala da bagno. La parte inferiore della struttura si presta a zona contenitiva attraverso l'opzione della mensola semplice, disponibile in tutte le colorazioni della ceramica Scarabeo, o di cassetti proposti in finiture colorate o in diverse essenze lignee di prestigio. SOLID si completa, infine, di accessori in metallo posizionabili a muro o in appoggio che ampliano la capacità contenitiva e offrono ulteriori spunti creativi per un'idea di bagno completo e decisamente funzionale.

SOLID is the quintessence of versatility: multiple elements can be perfectly combined and integrated to create design solutions able to meet every need and taste. At the heart of the system lies the new Scarabeo ceramic top – durable, easy to clean and available in a wide range of finishes – which interacts with the striking metal frame, offered in matt Black, Grey, Dove-Grey and satin Gold and equipped with an integrated towel rail, designed to fit all Teorema 2.0 collection washbasins. With the addition of a wooden shelf or extra ceramic tops, the same frame becomes a console suitable for over 100 models of lay-on basins. Moreover, the ceramic washbasins can be chosen in different colours, creating a unique, personalised identity for the bathroom. The lower part of the structure can be used as storage space, with the option of a simple shelf, available in all Scarabeo ceramic colours, or drawers with coloured finishes or prestigious wood veneers. Finally, SOLID is completed with wall-mounted or countertop metal accessories that increase storage capacity and offer further creative options for a fully equipped and highly functional bathroom.

Art. 5704

SOLID - CERAMIC UPPER SHELF 120 X 46 X H2 CM

Art. 5704

SOLID - CERAMIC UPPER SHELF 120 X 46 X H2 CM

Il top in ceramica di Scarabeo Ceramiche interpreta il bagno contemporaneo con un equilibrio preciso tra pulizia formale, funzionalità quotidiana e qualità materica. Progettato per integrarsi con naturalezza nei mobili bagno, definisce l'area lavabo con una superficie compatta, essenziale e visivamente leggera, capace di valorizzare l'intera composizione.

La ceramica, materiale identitario di Scarabeo, offre una presenza elegante e senza tempo, ideale per ambienti bagno moderni e raffinati. La superficie si distingue per la sua luminosità, per la piacevolezza tattile e per una resa estetica pulita, capace di esaltare linee morbide o geometrie più rigorose a seconda del progetto d'arredo.

Dal punto di vista funzionale, il top in ceramica garantisce igiene, praticità di utilizzo e semplicità di manutenzione. La sua natura resistente lo rende adatto all'uso quotidiano, mentre la continuità visiva tra piano e zona lavabo contribuisce a creare un insieme ordinato, armonioso e immediatamente fruibile.

Il top in ceramica di Scarabeo diventa un elemento progettuale che unisce estetica e prestazione: una soluzione affidabile, versatile e distintiva, capace di dare personalità allo spazio bagno attraverso la forza espressiva di un materiale classico reinterpretato in chiave contemporanea.

Scarabeo Ceramiche's ceramic countertop interprets the contemporary bathroom through a precise balance of formal purity, everyday functionality, and material quality. Designed to integrate naturally with bathroom furniture, it defines the washbasin area with a compact, essential, and visually lightweight surface, capable of enhancing the entire composition.

Ceramic, Scarabeo's signature material, offers an elegant and timeless presence, ideal for modern and refined bathroom interiors. The surface stands out for its brightness, pleasant tactile quality, and clean aesthetic appeal, capable of enhancing soft lines or more rigorous geometries depending on the furnishing project.

From a functional point of view, the ceramic countertop ensures hygiene, ease of use, and simple maintenance. Its durable nature makes it suitable for everyday use, while the visual continuity between the top and the washbasin area helps create a neat, harmonious, and immediately practical overall effect.

Scarabeo's ceramic countertop becomes a design element that combines aesthetics and performance: a reliable, versatile, and distinctive solution, able to give character to the bathroom space through the expressive strength of a classic material reinterpreted in a contemporary key.

LAILA

DESIGN: SCARABEO CERAMICHE

LAILA è il sistema di arredo bagno che Scarabeo ha progettato per completare ed esaltare l'eclettica collezione di lavabi Moon, caratterizzata da un'anima sottile e da volumi generosi. La struttura tubolare in metallo, leggera ma resistente, è proposta in diverse varianti cromatiche e si inserisce con naturalezza in contesti dallo stile minimale, contemporaneo o più decorativo. Attorno a questo telaio si sviluppa un'ampia gamma di soluzioni contenitive e funzionali: mensole e cassetti in legno, disponibili in varie finiture, dialogano con le nuove mensole in ceramica smaltata, proposte in molte tonalità sia lucide sia opache, per creare combinazioni materiche e cromatiche sempre diverse. LAILA è una proposta dinamica e raffinata, perfetta per ogni tipologia di sala da bagno, anche di piccole dimensioni, grazie a moduli compatti e ben organizzati. Le numerose possibilità di abbinamento tra lavabi Moon, finiture metalliche, essenze lignee e colori ceramici portano le configurazioni possibili a oltre 100 soluzioni. Le nuove unità contenitive prevedono cassetti più ampi e vani a due ante, realizzati sia in legno, in diverse essenze di pregio, in finiture opache. La parte contenitiva si integra perfettamente con le diverse misure della struttura tubolare in metallo, offrendo un sistema d'arredo completo, versatile e coerente con la qualità Made in Italy di Scarabeo.

LAILA is the bathroom furnishing system that Scarabeo designed to complement and enhance the eclectic Moon washbasin collection, distinguished by its slim profile and generous volumes. Its tubular metal frame, light yet sturdy, is available in several color options and fits naturally into minimalist, contemporary, or more decorative interiors.

Around this frame, a wide range of functional storage solutions is developed: wooden shelves and drawers, available in various finishes, interact with the new glazed ceramic shelves, offered in many glossy and matte shades, to create ever-changing material and color combinations.

LAILA is a dynamic and refined proposal, perfect for every type of bathroom, even small ones, thanks to its compact and well-organized modules. The many possible combinations of Moon washbasins, metal finishes, wood essences, and ceramic colors result in more than 100 possible configurations.

The new storage units include larger drawers and two-door compartments, made both in wood, in various fine wood finishes, and in matte finishes. The storage elements integrate perfectly with the different sizes of the tubular metal frame, offering a complete, versatile furnishing system fully consistent with Scarabeo's Made in Italy quality.

GUSTAV

DESIGN: SCARABEO CERAMICHE

GUSTAV è la nuova soluzione d'arredo per bagni di piccole dimensioni o ambienti openspace con una zona dedicata al benessere. Elegante, dal design fresco e gioioso, GUSTAV arreda con carattere e personalità offrendo al tempo stesso una fruibilità semplice e confortevole. Realizzato in metallo, si presenta con una struttura leggera e ariosa dotata di due piani d'appoggio circolari: il superiore accoglie il lavabo, quello inferiore è pensato per gli oggetti di uso quotidiano. Proposto in una vasta gamma di colorazioni (le stesse disponibili per la ceramica di lavabi e sanitari Scarabeo, in finitura lucida o opaca) consente di scegliere liberamente la combinazione cromatica. Struttura, piani e lavabo possono infatti essere coordinati tono su tono oppure mixati tra loro, creando abbinamenti personalizzati e perfettamente in linea con lo stile dell'ambiente.

GUSTAV is the new furnishing solution for small bathrooms or open-space interiors featuring a dedicated wash area. Elegant, with a fresh and joyful design, GUSTAV adds character and personality while remaining extremely easy and comfortable to use. Made of metal, it features a light, airy frame with two circular shelves: the upper one hosts the washbasin, while the lower one is designed for everyday items. Available in a wide range of colours (the same palette offered for Scarabeo washbasins and sanitary ware, in both glossy and matt finishes) it allows complete freedom in colour matching. Frame, shelves and basin can be finished in the same tone or mixed in contrasting hues, creating customised combinations that perfectly reflect the style of the surrounding space.

SESTO

DESIGN: SCARABEO CERAMICHE

SESTO è una consolle per la sala da bagno dal design essenziale, che nel suo minimalismo offre grande funzionalità e ampie possibilità di personalizzazione. La forma semicircolare e la struttura snella in metallo, con porta asciugamani integrato, accolgono due piani d'appoggio: quello superiore dedicato al lavabo, quello inferiore pensato per oggetti e accessori di uso quotidiano.

I piani possono essere utilizzati a vista oppure completati da basi in ceramica circolari, disponibili in tutti i colori dei lavabi e sanitari Scarabeo (lucidi e opachi), per creare composizioni su misura attraverso le cromie desiderate. SESTO è una soluzione raffinata e scenografica, capace di arredare con eleganza qualsiasi ambiente bagno contemporaneo, valorizzando la qualità della ceramica Made in Italy.

SESTO is a bathroom console with an essential design that, in its minimalism, offers outstanding functionality and extensive customization possibilities. Its semicircular shape and slim metal frame, with integrated towel rail, accommodate two surfaces: the upper one designed for the washbasin, and the lower one intended for everyday items and accessories.

The surfaces can be left open or complemented with circular ceramic bases, available in all Scarabeo washbasin and sanitaryware colors (glossy and matte), allowing bespoke compositions through the desired color combinations. SESTO is a refined and striking solution, capable of furnishing any contemporary bathroom with elegance while enhancing the quality of Made in Italy ceramic.

CROSS

DESIGN: SCARABEO CERAMICHE

Uno stile ricercato e fuori dagli schemi per un ambiente bagno unico e decisamente glamour. Scarabeo presenta CROSS, la soluzione d'arredo che trasforma la sala da bagno in uno spazio affascinante, originale e al tempo stesso delicato e funzionale. CROSS ci introduce in una nuova atmosfera, dove il calore del legno incontra la purezza della ceramica in un incrocio perfetto di materiali e finiture suggestive, trasformando il bagno in un ambiente emozionale e incredibilmente pratico. Una base in legno, composta da elementi che si intrecciano e sono raccordati da inserti in ceramica, sostiene un top rotondo in ceramica su cui possono essere posizionati 14 diversi modelli di lavabo delle collezioni Scarabeo (Bucket, Glam, Mizu, Thin-Line, Shape e Lavabi d'Arredo).

Il legno è disponibile nelle tonalità chiaro e scuro, mentre la ceramica del piano d'appoggio e degli inserti è proposta in 20 finiture differenti, coordinate a lavabi e sanitari, per garantire un elevato livello di personalizzazione in linea con le tendenze più attuali per un bagno sempre più originale e fashion. CROSS si completa inoltre con un piccolo tavolo, perfettamente abbinato alla consolle, affinché la sala da bagno diventi a tutti gli effetti un luogo accogliente, fruibile e completo.

A unique, refined style for a truly glamorous bathroom. Scarabeo presents CROSS, the new furnishing solution that turns the bathroom into a fascinating, original space, delicate in its look yet highly functional in everyday use. CROSS creates a new atmosphere where the warmth of wood meets the purity of ceramic, in a perfect interplay of materials and evocative finishes that makes the bathroom both emotional and incredibly practical. The wooden base, made of intersecting elements joined by ceramic inserts, supports a round ceramic top designed to host 14 different washbasin models from the Scarabeo collections (Bucket, Glam, Mizu, Thin-Line, Shape and Fitted Washbasins). The wooden structure is available in light or dark tones, while the ceramic top and inserts come in 20 different finishes, matching the colours of Scarabeo washbasins and sanitary ware to provide a high level of customisation in line with current trends for an increasingly original and fashionable bathroom. CROSS is completed by a small side table perfectly coordinated with the console, making the bathroom a welcoming, fully functional and truly complete living space.

PICTURE

DESIGN: STUDIO ADOLINI

PICTURE è la nuova e versatile collezione di arredobagno disegnata dallo Studio Adolini per Scarabeo Ceramiche. Una serie di telai estetici in metallo accoglie elementi contenitivi e accessori che possono essere combinati in molteplici configurazioni, offrendo un'esperienza di design su misura per ogni ambiente bagno. PICTURE è proposta con due diverse tipologie di telaio: una versione da appoggio a terra, alta 162 cm, che integra al suo interno specchio e mensola; e una versione sospesa a 72 cm, come il mobile contenitivo, abbinata a un secondo telaio, distaccato dalla struttura sottostante, che accoglie specchio e mensola. Entrambe le tipologie sono disponibili nelle larghezze 68, 98, 128 Cm.

I mobili contenitori, proposti nelle tre misure dei telai, offrono ampie possibilità di personalizzazione sia nella composizione, con o senza vani a giorno, sia nella scelta delle finiture. Le finiture Standard comprendono Bianco, Nero, Rovere Scuro e Rovere Lindberg, combinabili anche con scocche bianche o nere. A queste si aggiungono le finiture Premium, che prevedono versione cannettata oppure liscia per le essenze lignee Noce Canaletto e Rovere Chiaro, oltre ai laccati opachi disponibili in 10 diverse tonalità.

PICTURE is the new versatile bathroom furniture collection designed by Studio Adolini for Scarabeo Ceramiche. A series of refined metal frames houses storage units and accessories that can be combined in multiple layouts, offering a truly tailor-made design experience for every bathroom. PICTURE is available with two different frame types: a floor-standing frame, 162 cm high, which accommodates both mirror and shelf; and a suspended frame, 72 cm high like the storage unit, paired with a second frame detached from the base structure, designed to hold the mirror and shelf. Both frame types come in widths of 68, 98 and 120 cm.

The storage cabinets, available in the same three widths, provide a high level of customisation, both in terms of composition, with or without open compartments, and in the choice of finishes. The Standard finishes include White, Black, Dark Oak and Lindberg Oak, which can be matched with white or black carcasses. In addition, the Premium finishes offer a fluted or smooth option for Canaletto Walnut and Light Oak, as well as matt lacquered versions available in 10 different shades.

FUJI

DESIGN: EMO DESIGN

La consolle FUJI, nata come sostegno dedicato al lavabo Fuji, si evolve e si arricchisce di un piano in legno, estendendo la sua funzione a tutta la gamma di lavabi da appoggio Scarabeo. Disponibile in due dimensioni, 59 e 79 cm, presenta una struttura in tondino di ferro verniciato Bianco o Nero opache e offre la possibilità di scegliere il ripiano tra due diverse essenze lignee (Rovere moro e rovere Lindberg). Essenziale, sobria e versatile, la consolle FUJI diventa un arredo bagno leggero ma caratterizzante, abbinabile a venti tipologie di lavabi Scarabeo, ciascuno disponibile in 20 diverse colorazioni.

Originally conceived as a support for the Fuji washbasin, the FUJI console has evolved with the addition of a wooden top, making it suitable for the entire range of Scarabeo lay-on washbasins. Available in two sizes, 59 and 79 cm, it features a slim iron-rod frame in Matt White or Black and a shelf in two different wood finishes (Rovere Moro and Rovere Lindberg). Essential, clean and highly versatile, the FUJI console becomes a light yet distinctive bathroom element, which can be combined with twenty Scarabeo washbasin models, each offered in 20 different colours.

BATHTUBS

DESIGN: SCARABEO CERAMICHE

Scarabeo presenta una collezione di vasche da bagno in stile contemporaneo, pensata per dialogare in continuità con i suoi lavabi e sanitari. Le tre collezioni MOON, TEOREMA 2.0 e GLAM arricchiscono l'offerta di vasche, aggiungendosi alla più classica CASTELLANA, offrendo progetti di bagno completi, coordinati e dal forte carattere decorativo.

La vasca MOON riprende le forme generose e arrotondate e i bordi sottili che caratterizzano l'intera famiglia di prodotti, trasformandosi in un elemento armonico ed elegante, pronto a diventare protagonista della stanza da bagno. TEOREMA 2.0 propone un design rigoroso e squadrato, tipico della collezione, ideale per ambienti decisamente moderni ed essenziali. La vasca GLAM è definita da una forma a catino, minimale e accogliente al tempo stesso: i bordi alti e sottili invitano a concedersi pause di relax confortevoli e distensive. CASTELLANA è la vasca freestanding d'ispirazione classica che richiama il fascino delle antiche dimore, con linee morbide e piedini lavorati. Un elemento scenografico pensato per momenti di autentico relax, capace di dare carattere e luce all'intera sala da bagno. Interpretazioni diverse, pensate per rispondere alle esigenze di un pubblico ampio e variegato che desidera un bagno completo, coordinato e dal design contemporaneo.

Scarabeo presents a collection of contemporary-style bathtubs designed to create seamless continuity with its washbasins and sanitary ware. The three MOON, TEOREMA 2.0 and GLAM collections expand the bathtub offering, joining the more classic CASTELLANA, and provide complete, coordinated bathroom schemes with a strong decorative character.

The MOON bathtub echoes the generous, rounded shapes and thin edges that define the entire product family, becoming a harmonious and elegant feature ready to take centre stage in the bathroom. TEOREMA 2.0 offers a rigorous, square design, typical of the collection and ideal for distinctly modern, essential interiors. The GLAM bathtub is defined by a bowl-shaped form, minimal yet embracing at the same time: its high, slim edges invite you to enjoy moments of deep comfort and relaxation. CASTELLANA is a freestanding bathtub with classic inspiration, evoking the charm of historic residences with its soft lines and sculpted feet. A dramatic statement piece designed for true moments of relaxation, adding character and light to the entire bathroom. Different interpretations conceived to meet the needs of a broad and varied audience seeking a complete, coordinated bathroom with contemporary design.

STEP

DESIGN: SCARABEO CERAMICHE

Innovazione e design sostenibile per un piatto doccia all'avanguardia. STEP è una nuova idea di piatto doccia in e-Gres, rivoluzionaria nel suo genere, esteticamente appagante e facilmente integrabile in qualsiasi contesto. STEP non è un semplice piatto doccia, ma un unico blocco in Gres Porcellanato Smaltato, spesso soli 25/27 mm, tagliabile su misura in fase di posa e ideale per il montaggio a filo pavimento. Una soluzione che elimina ogni criticità legata a dimensioni e spessori, perché può essere adattata con estrema semplicità a qualunque ambiente bagno.

Progettato in un'ottica di sostenibilità, STEP utilizza e-Gres, materiale industriale che reimpiega al 100% i residui del processo produttivo secondo i principi dell'Economia Circolare. Il risultato è una superficie duttile e incredibilmente resistente all'uso intensivo e alle condizioni più estreme: idrorepellente, in grado di sopportare carichi fino a 1000 kg, resistente all'abrasione, agli acidi, alle macchie, agli sbalzi termici e alle intemperie. L'intera superficie è antiscivolo (Cat. A+B) e la texture, proposta in diverse colorazioni, non subisce alterazioni dovute alla luce. Solido, durevole e igienicamente sicuro, STEP è la nuova frontiera della zona doccia: una sintesi evoluta tra artigianalità e industria, tra natura, tecnologia ed ecologia, ideale per bagni residenziali, contract e spazi outdoor.

Innovation and sustainable design for a truly cutting-edge shower tray. Scarabeo presents STEP, a new concept in e-Gres shower trays, revolutionary in its category, visually refined and easy to integrate into any setting. STEP is not just a shower tray, but a single glazed porcelain stoneware block, only 25/27 mm thick, which can be cut to size during installation and is perfect for flush-to-floor mounting. This solution eliminates any issues related to size or thickness, as it can be adapted effortlessly to any bathroom layout.

Designed with sustainability in mind, STEP is made of e-Gres, an industrial material that reuses 100% of processing residues according to Circular Economy principles. The result is a ductile surface with outstanding resistance to intensive use and the most demanding conditions: water-repellent, capable of bearing loads of up to 1000 kg, resistant to abrasion, acids, stains, thermal shock and adverse weather. The entire surface is anti-slip (Cat. A+B) and the texture, available in a wide range of colours, does not change over time when exposed to light. Solid, durable and hygienically safe, STEP represents the new frontier of the shower area: an evolved synthesis of craftsmanship and industry, nature, technology and ecology, ideal for residential bathrooms, contract projects and outdoor spaces.

COLORS

Alla ceramica bianca, nobile, classica e senza tempo, Scarabeo affianca un'ampia gamma di soluzioni colorate per arredare la sala da bagno con carattere e personalità, in linea con le tendenze e le linee guida del design contemporaneo. La scelta dei colori può influire in modo significativo sul contesto abitativo, creando sfumature e contrasti inediti capaci di trasformare l'ambiente in uno spazio carico di fascino ed originalità.

Alle tonalità già presenti in collezione, disponibili nelle versioni lucida e opaca, Scarabeo affianca nuovi colori che ampliano ulteriormente le possibilità compositive. L'Azzurro Air, il Giallo Lime e l'Arancio Peach arricchiscono la palette cromatica, offrendo nuove nuance (lucide e opache) per un ambiente bagno non solo funzionale ma anche esteticamente personalizzato. A queste tre nuove sfumature si aggiunge il Rosso Cherry, proposto esclusivamente in finitura glossy, per un tocco di colore inedito e audace.

Alongside noble, classic and timeless white ceramic, Scarabeo offers a wide range of coloured solutions to furnish the bathroom with character and personality, in tune with contemporary design trends and guidelines. The choice of colour can significantly influence the living space, creating unexpected shades and contrasts that turn the bathroom into a setting full of charm and originality.

In addition to the existing shades, available in both glossy and matt finishes, Scarabeo introduces new colors that further expand the range of possible design combinations. Air Blue, Lime Yellow and Peach Orange extend the palette with fresh tones (in glossy and matt versions) for a bathroom that is not only functional but also visually customised. Completing the range is Cherry Red, offered exclusively in a glossy finish, for a bold, distinctive touch of colour.

WOODS

Le essenze lignee proposte da Scarabeo sono molteplici e di grande prestigio. Alle finiture Standard (Rovere Scuro, Rovere Lindberg) si affiancano le finiture Premium, che permettono di scegliere tra Noce Canaletto e Rovere Chiaro, disponibili sia in versione liscia sia cannettata. Il legno è inoltre proposto con finitura laccata matt nei colori Pearl, Ardesia, Sand, Tabacco, Antique Pink, Musk, Ocean, Air, Lime e Peach, gli stessi della ceramica, per creare combinazioni materiche e cromatiche perfettamente coordinate all'interno dell'ambiente bagno.

Scarabeo offers a wide range of highly prestigious wood finishes. Alongside the Standard finishes (Dark Oak and Lindberg Oak), the Premium finishes allow a choice between Canaletto Walnut and Light Oak, both available in smooth and fluted versions.

The wood is also offered in a matte lacquered finish in the colors Pearl, Slate, Sand, Tobacco, Antique Pink, Musk, Ocean, Air, Lime, and Peach — the same shades available for the ceramic elements — to create material and color combinations that are perfectly coordinated within the bathroom environment.
